1st Engine Information - required for all vehicles
Reminder: Engine repower information should be entered on the **Engine Repower** page.

Eng Serial #	Manufacturer	Model	Model Year	Max HP	Eng Tier

Eng Family	Displacement (Liters)	Non-Diesel Engine	Certified to a Different Standard

Electric Airport Ground Support Equipment (GSE)
Electric airport GSE equipment purchased before 1/1/2007 can be included in both the Off-Road Diesel fleet and the Large Spark-Ignition (LSI) fleet.

Include This Equipment In The LSI Fleet:	.

* For vehicles used a majority of the time (but not solely) for agricultural operations, the fleet must report hours of use for these vehicles each year that reporting is required. Download the reporting form: (**pdf version**).

Public Info Lookup

You may **search for company compliance information here.** .

All vehicles subject to the in-use off-road diesel-fueled fleets regulation should be labeled with Equipment Identification Numbers (EINs) by mid-September 2009. All EINs consist of six characters - two upper case letters, one number, one upper case letter, and then two numbers (for example, "RH4M79"). The letters, I and O, and the numbers 1 and 0, are not included in EINs.

If you suspect a vehicle you observe has a fraudulent EIN, you can look up further information on the vehicle including vehicle type, and vehicle manufacturer. Enter the EIN in the box provided. Be sure to use uppercase letters

Enter EIN here: GN9K85   Check EIN
