SEGMENT# 1 C 1288 NA 08/02/23 08/03/23  
 ecu 3480.01

CORRECTION:

-Checked the codes when I arrived, found they were stored and only 1 of each dosing pump coded (4 total). Checked starting operations and running of engine, it was fine. Cycled key 6 or 7 times and the codes came back but only for a moment and did not stay active. Couldn't get them to activate again for another dozen key cycles. Tried wiggle test on all the connectors, tap the pump and dosing unit with no issues. Plugged in pump and cycled the key dozens of times and let unit run for 30 min with no more issues.

ADDITIONAL DESCRIPTION:

-4 Codes related to ECU 3480.01 only single counts.
