

10X10 - 625 Series Coiling Door

(Brand New, unused, still in packaging)

Stormtite™ Insulated Heavy-Duty Rolling Doors

The Model 625 rolling steel doors are an insulated, heavy-duty rolling service door that is an ideal choice for applications requiring a moderate level of thermal protection. These doors are constructed with a CFC-free, foamed-in-place polyurethane insulation. Vinyl weatherstripping on the bottom bar, exterior curtain-side guide and hood baffle provides additional protection against air infiltration.
