/Diagnose Trans Retail

COMPLAINT:

Transmission codes, does not drive.

Across from 170 Goddard Memorial Drive, Worcester MA

William, 617-999-2468

CAUSE:

Leaking pump case drain hoses.

Bad park brake solenoid coil.

CORRECTION:

09-26-2023 - Road service call to Goddard Memorial Drive, Worcester, MA.

Inspected - Found the hydraulic/transmission oil not in the sight glass.

Added 5 gallons of oil - Found still not in the sight glass.

Tipped the cab - Found a case drain line on the pumps cracked and leaking..

Inspected the electrical side - Found a 25 amp fuse where a 7.5 am fuse needs to be for the hydraulic lock. Also found that the latching relay is burnt.

The customer got the parts needed.

Went down every wire from the fuse - Found that every time the TCU is powered, the fuse blows and throttle is lost.

The emergency stop switch is bypassed.

Inspected the park brake coil - Found open.

Ordered the parts needed to complete the repair.

09-28-2023 - Return service call to Goddard Memorial Drive, Worcester, MA.

Removed the belly pans and removed the debris from the belly.

Tipped the cab and fabricated a tool to help install the park brake valve.

The customer arrived and assisted in the installation of the park brake valve.

Topped off the hydraulic/transmission oil.

Checked the splitter box, engine oil, and coolant levels - Found okay.

Ran - Found everything working properly, except for the blade float is not working.

Inspected - Found the load sense line running from the control valve to the hydraulic pump leaking.

Installed a new hose, customer supplied.

Tested - No leaks.

While under the belly it was noticed that a lot of the hydraulic lines should be replaced and the float coil is missing. The customer is aware.
