

CONTROLLED ENVIRONMENT VAULTS

Oldcastle Precast Controlled Environment Vaults (CEV's) are the most advanced vaults in our underground product family. The CEV is hiding in plain sight, concealing sophisticated communications equipment and providing capacity and coverage to surrounding communities.

APPLICATIONS

- > DAS/Small Cell-Stealth
- > Macrocell sites

FEATURES

- Secure environment for equipment racks or cabinets
- Dedicated HVAC
- Battery backup capacity
- Traffic Rated (HS-20) hatch, watertight environment
- Environmental monitoring
- Zero profile entry

IDEAL LOCATIONS

- > Dense urban environments
- > Remote locations

BENEFITS

- Vandalism, vehicular & collision proof
- Maintains thermal benefits of undergrounding
- Area to provide battery back up is necessary
- Heavy traffic loading
- Life safety for confined space
- Emphasizes stealth strategy
