The adhesive that we use to attach the windshield to the body takes time to set. In order to allow the adhesive to set sufficiently before driving your vehicle, please follow the instructions below:

1. Minimum drive-away time; vehicle should not be driven for at least 30 minutes after installation completed unless technician has stated, in the space below, that a different minimum drive-away time applies.

DO NOT DRIVE THE VEHICLE BEFORE 15:05

2. After the installation, you should not do anything that could interfere with the adhesive setting process such as pushing against, touching or otherwise testing the glass or adhesive.
3. You should not take the vehicle through a car wash for first 24hours after installation. If these instructions are not followed, adhesive might not set or retain glass sufficiently, which could cause accident or damage to vehicle, or increase the risk of injury if vehicle is involved in a collision.

WINDSHIELD INSTALLATION: The warranty is not transferable or redeemable for cash, the installation is warranted against leaks and windshield manufacturing defects. (See the next page.)
