**Subject: Caterpillar Model: 336D, Chassis No. CAT0336DAMBP10185.**

**TO WHOM IT MAY CONCERN**

This is to confirm that CAT Machine Model **336D** Chassis No. **\*CAT0336DAMBP10185\*** has been inspected for the chassis number verification as per the request.

As the Caterpillar Dealer and Distributor for the United Arab Emirates, we have verified the chassis number with the CAT information system and found the identification plate on the frame & chassis number on the frame is not matching with the serial number punched on the hidden location.

The serial number punched on hidden location is **CAT0330DCMEY00264**.

It appears that the chassis number **\*CAT0336DAMBP10185\*** is re punched wrongly on the front frame and the plate on the front frame is not original.

The front frame punched & plate serial number **\*CAT0336DAMBP10185\*** is wrong.

Assuring you our best service at all times,

Best Regards,

**Saidas P**  
**Machine section Manager**
