✓ Authorized on January 06, 2025 at 08:26 AM

Job Total
\$8,882.82

Note:

Truck came in for head gaskets. While draining coolant, transmission fluid came out. Not much fluid overall. Radiator failure. Removed heads, found #1 piston burned around bowl, and valve mark in piston. Removed piston, honed cylinder, and replaced. Installed new O-Ringed heads. Once together, flushed system multiple times until water was perfectly clear. Trans dipstick showed coolant residue. Dropped pan and replaced trans fluid.
