COMPLAINT:

Machine will crank but no start

Steve- 636-295-1648

13494hrs

CAUSE:

2/11/26

Went out to machine and connected service advisor and checked codes, none were found cranked engine for 15 secs and checked codes none were found also checked engine speed and other readings during cranking and all were normal. Engine was cranking slow so connected jumper cables to battery and charged up. Disconnected fuel supply line on injection pump and checked quality and found fuel supply was good, disconnected all 4 injection lines on pump and checked if any fuel came out during cranking none was. Disconnected ecu and cleaned connections terminals were green, checked wiring with meter from pump to ecu and made sure ecu had power and ground. Checked pump coil and it tested good, payloaded a ecu and installed on machine test ran and still no start, payloaded original ecu back to machine. Injection pump was found to be faulty, had reman injection pump brought out from Fenton. Returned back to store for a couple hours till pump arrived then went back out to machine.

CORRECTION:

2/11/26

Cleaned off pump with brake clean and removed all lines and connections on pump, used puller and pulled gear off pump. Removed pump and cleaned mounting surface installed new pump, installed all lines and connections. Left injection lines loose cranked engine and bled fuel, closed lines and started engine. Test ran engine and checked for leaks none found. Boxed up old pump and returned for core.

COMPLAINT:

They can also use the office address – 104 Hansen Ct., O'Fallon, MO 63366

They will just keep driving straight past the office (thru the open gate) and they'll see the metal shop building on their right.

CORRECTION:

CHARGES ARE FOR TRAVEL TIME & MILEAGE
