JOB #1 12 SRET ENGINE

CONDITION Engine is idling real rough and also runs rough down the road (engine is rougher at idle) *check and advise*
 **Engine tends to shutdown after driving upward of 100 miles... will start back up but have to wait a little bit
 Estimate # - 2317098

CAUSE

CORRECTION Verified complaint. Ran koeo injector buzz and all ok, Ran relative compression to find 0 compression on cylinder #2. Advised that head needs to be removed to check for bottom end or camshaft damage. Remove head found liners have little cross hatch and cobe lobe worn. Made estimate for inframe and cam. Teardown remove front cover and attempt to remove cam shaft unable to remove cam bushings failed. Called Warranty company and they sent out an inspector to authorize repairs. Afterwards warranty company agreed to covered \$12250.00 of repair. Customer was given two quotes for long block and fuel ready. Customer chose fuel ready option. Order engine and remove old engine. Send radiator out for cleaning. Install new engine assy(S/N#, with breather and intake elbow. Install new belts, and hoses. Fill with fresh fluids and road-test good.
