D3907 popped up.  
-Checked and found no new code history in service analyzer.  
-Looked up cases and found similar machines not recording and issue resulted in LH joystick base not returning to neutral.  
-Machine will not drive at this time of testing as joystick is not returning to neutral.  
-Restarted machine and held joystick in a more neutral positing and pressed PTOL, did not code and could drive into shop.  
-Removed old joystick base and installed new one (with new bolts).  
-Ran machine and tested, no further codes at this time.
