

## **Roll it Booths – Retractable Paint Booth**

Roll it Booths' Retractable Paint Booth is a flexible, space-saving containment solution designed for painting, coating, and finishing operations. The booth features a retractable structure that expands when needed and retracts when not in use, maximizing valuable floor space. Built with durable materials and an easy-to-operate design, it provides a controlled work environment that helps contain overspray, dust, and contaminants while improving workplace safety and efficiency. Ideal for manufacturing, automotive, industrial, and maintenance applications, the retractable paint booth offers a cost-effective alternative to permanent paint booth installations.
