## Open Recalls

Recall #: N150817 | Front Passenger Airbag Recall Date: 2015 May 28

### Recall Description

Some front passenger airbag inflators may experience an alteration over time, which could lead to overaggressive combustion in the event of an air bag deployment. This condition could create excessive internal pressure when the air bag is deployed, which could result in the body of the inflator rupturing upon deployment.

### Remedy

Dealers will replace the front passenger air bag inflator, free of charge.
