

1979 Pontiac Firebird Trans Am 10th Anniversary Edition, finished in Silver and Charcoal with a Medium Gray interior.

- Power comes from an L80 6.6-liter (403-cubic-inch) V8, rated at 185 horsepower and 320 lb-ft of torque in its stock form. Due to the modifications performed to this Firebird, it may produce more power, but a dyno sheet was not provided to confirm. Output is sent to the rear wheels via a 3-speed Turbo Hydromatic 350 automatic transmission.
- A partial list of notable currently installed equipment reported by the seller includes 15-inch wheels, removable T-top roof panels, leather upholstery, and air conditioning. Notable modifications reported by the seller include an Edelbrock carburetor, an Edelbrock Performer RPM intake manifold, aftermarket headers, a Powermaster alternator, an Alpine head unit, and aftermarket speakers.
