INSTRUCTIONS

1. ORS 803.210 requires a VIN inspection when:
 - A foreign (out-of-state or out-of-country) vehicle is being titled in Oregon.
 - The vehicle will be titled as a totaled and/or an assembled, reconstructed or replica vehicle. Surrender of the title to DMV has been or is required because the vehicle has been wrecked, disassembled, substantially altered or totaled, or when DMV has received notice of this, whether or not the vehicle is being retitled as assembled or reconstructed.
 - DMV has reason to believe the vehicle was not certified by the original manufacturer as conforming to federal standards.
2. Vehicles located in Oregon may be inspected by Oregon DMV, any Oregon law enforcement agency, or an Oregon vehicle dealer.*
 - * Dealers may **only** inspect a vehicle **in their stock** being titled in Oregon for the first time. A dealer may **not** inspect a vehicle being titled as totaled and/or assembled, reconstructed or a replica vehicle; a vehicle that appears to have been wrecked or destroyed; or a vehicle imported from another country that has not been certified by the manufacturer as conforming to U.S. federal vehicle standards.
3. Vehicles located out of state may be inspected by the DMV or any law enforcement agency in that state.
4. **LEV Boxes:** DMV will not issue registration for model year 2009 or newer motor vehicles with 7,500 miles or less on the odometer at the initial Oregon registration, unless the vehicle meets the Low Emission Vehicle (LEV) requirement or is otherwise exempt. The LEV check boxes on the front of this form are for use only by DMV staff or Oregon licensed vehicle dealers with the vehicle in their stock, to certify that they viewed the under hood emission label of that vehicle and are verifying that the label indicates compliance with the LEV requirement, or does not comply. A "Yes" indicator on the front of this form is only valid if the label was checked by DMV staff or the dealer staff, the form contains complete vehicle information, and the form is signed and dated by DMV staff or Oregon dealer staff. Dealers may not charge a fee to check compliance with the LEV requirement.
5. The inspector must physically inspect the vehicle.
6. The VIN must be located in an area prescribed by the vehicle manufacturer. This information is available to law enforcement through the National Insurance Crime Bureau (NICB).
7. This form must be completed in full. Incomplete forms may result in the request for a new inspection. The form must be signed, dated and include the inspector's name, agency or dealer name and address.

REFERRAL VIN

To be completed by law enforcement agency under agreement with DMV.
Reimbursement only made if subject vehicle is referred by DMV and form is completed in full.

Law Enforcement Recommendations:

- ☐ Assign pre-numbered VIN tag. (No number can be found or unable to determine VIN from frame number.)
- ☐ Assign unnumbered VIN tag. (VIN can be determined but public VIN is damaged, illegible, or missing. Note in "Remarks" the number recommended for use.)
- ☐ No need to assign VIN. (Manufacturer VIN is readable and placed correctly per NICB.)
