SEGMENT# 1 C 03017 NA 06/05/26 06/05/26

****GET RUNNING****

CAUSE:

valve stuck and other issues

CORRECTION:

installed new coil after testing the old one, installed new spark plug, removed carb and tore it apart, throttle was seized, removed fuel tank and cleaned it out, finally got spark and popped a fuse, installed a new 15 amp fuse, unit would run but was backfiring out of the carb, found the intake valve was stuck open, removed the valve cover and the crankcase filter, cleaned everything out and was able to knock the intake valve down, was turning over the engine to get it free so it would go up and down smoothly, once it was free i put everything back together and fired it up, ran smooth, would recommend a new battery as this one is swollen and doesn't hold charge long

ADDITIONAL DESCRIPTION:

Clean fuel tank, charge battery get running
