

Warranty Transfer Notice for Auction Machines

This letter confirms SANY America, Inc.'s warranty transfer policy as it applies to auctioned equipment. Warranties may be transferred to a new owner only if the original warranty remains active and all requirements of the transfer process are satisfied. The transfer process must be completed before coverage is reassigned. Failure to follow the process outlined will result in the warranty not being transferred and may cause delays in claims or coverage determinations.

All warranty transfers are subject to review and approval by SANY America, Inc. and do not extend, alter, or modify the original warranty in any way. The decision of whether a machine remains under warranty following review rests solely with SANY America, Inc.
