

THE RIGHT MACHINE THE RIGHT PLAN

Cat[®] Equipment Protection Plans

CONTROL YOUR COSTS MINIMIZE YOUR RISKS

You expect high performance from your people and your machines. If you're like a lot of equipment owners, you've also become something of an expert in risk management. You know that unexpected repairs can mean downtime—and put a crimp in your cash flow.

Your original Caterpillar warranty provides months of worry-free operation. But your machines are designed for years of productivity. Fortunately, the cost of unexpected repairs can be controlled—with a Cat® Equipment Protection Plan.

Equipment Protection Plans are available for many Cat products, including:
New equipment • Used equipment • Certified Rebuild products • Certified Powertrain Rebuild products • Hydraulic hammers • Telehandlers

Also available for machine control and guidance technology, including:
AccuGrade™ Grade Control System • CAES • AQUILA™ Drill and Dragline Systems • MineStar™ System components

Equipment Protection Plans safeguard your investments in new, used and rebuilt machines beyond the standard warranty period. Each plan includes parts and labor to safeguard you against covered failures caused by defects in materials and workmanship.

Three levels of protection are available: Powertrain, Powertrain+ Hydraulics and the most comprehensive coverage option, Premier.* You can further tailor these plans to your specific needs by selecting from a wide variety of years/hours combinations. You'll find an extensive list of many included components in the back of this document.

*Product availability varies by region.

Equipment Protection Plan benefits

- Provides the highest level of repair cost control available
- Tailored coverage to meet your needs
- Safeguards your investment beyond the standard warranty period
- Backed by the global resources of Caterpillar

What your Cat dealer does

- Performs necessary inspections to confirm eligibility
- Installs parts approved by Caterpillar on covered repairs
- Validates your enrollment in the program

What you do

- Operate equipment according to the Cat Operation & Maintenance Manual (OMM)
- Have recommended preventive maintenance performed at intervals specified in the OMM
- Upon request, provide proof of preventive maintenance compliance (receipts, copies of work orders, invoices)
- Promptly provide the machine for repair in the event of a covered failure

YOU KNOW WHAT IT MEANS TO HAVE THE RIGHT MACHINE FOR THE JOB

With the right machine, you get the job done right—on time and on budget.

Cat® Equipment Protection Plans help you get the most out of your new, used and rebuilt machines by addressing the biggest issues facing you on the job site.

Control your costs

An unexpected equipment failure can play havoc on your schedule. With an Equipment Protection Plan, trained dealer technicians bring your machine back to the correct operating specifications using genuine Cat parts. And when it comes time to sell, you have documented repair records and possibly a transferable plan—increasing the chances of getting top dollar for your equipment.

Maximize your productivity

Cat technicians are preventive maintenance experts, and they can help with unforeseen repairs as well. A Cat Equipment Protection Plan helps you understand and lock in costs up front, which lets you focus on managing your business, not your repairs.

Get the expertise you need

An experienced crew of mechanics is central to keeping your business running efficiently. But when you're running lean, you may not have all the people you need on staff. Fortunately, your Cat dealer has invested heavily in training and proper tooling. An Equipment Protection Plan is one more way to ensure you are getting the most from your machine.

Focus on safety

Our technicians have the experience, training and tooling to complete repairs effectively and safely. When your machine returns to the job, you can be confident that correct operation specifications have been restored.

Keep pace with regulations

In a highly regulated environment, it's important to have a business partner who understands how to support your business. Cat Equipment Protection Plans ensure you retain affordable access to Cat dealer expertise.
