Address:

At Altec our first and foremost priority is the safety of those who use our products.

Unit Model:

Serial #:

Vin #:

Altec's inspection of the unit identified above has determined that the unit cannot be safely operated without completion of the repairs indicated on the attached documents. The unit should be removed from service until these repairs are accomplished. Serious injury or death can result for any attempt to operate the unit without the benefit of these repairs.

Altec has recorded the out of service status of the unit. Until Altec has been notified, in writing, that the required repairs have been performed, or Altec performs the repairs, further service work, technical support, and part sales by Altec may be limited on this unit.

On the subsequent documents are the line numbers from the estimate that indicate safety concerns.

In the event of repairs completed by the registered owner or a third party you may follow these steps to have the status updated. Please email or mail a letter on company letterhead stating that all repairs have been completed and safety issues resolved. In the email or letter include a copy of this letter or reference the Altec unit serial number(s) and specific repairs that were addressed. Email can be sent to ServiceUnitUpdate@altec.com or mailed to Altec: Attention Red Tag, 5202 E HWY 36, Saint Joseph, Mo 64507.
