This vehicle history report is based on information (https://www.carfax.ca/vehicle-history-data) that was reported and available to CARFAX Canada as of July 24, 2025 (or once all the data was collected from our data sources and the report was complete). CARFAX Canada draws on billions of data records from thousands of sources across North America, and we receive new historical data records every day. There may be other information about this vehicle that has not been reported to CARFAX Canada. When buying a used vehicle, we always recommend using a CARFAX Canada Vehicle History Report, along with a vehicle inspection and test drive, to make an informed decision.

Vehicle History Report

			Antifreeze/coolant checked
			Fluids checked Oil and filter changed
			 Oil and filter changed Tire condition and pressure checked
			Tire pressure monitoring system reset

Recall #: N202324251 | Roof Rail Air Bag Inflator May Rupture Recall Date: 2021 Jul 01

Recall Description

General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2015–2016 model year Chevrolet Silverado and GMC Sierra vehicles. In these vehicles, the roof-rail airbag ("RRAB") inflators, which are located on the left- and right-side roof rails above the headliner, may contain a manufacturing defect that may result in inflator end cap separation or inflator sidewall split. If the end cap separates from the RRAB inflator or a sidewall rupture occurs, the compressed gas will escape from the inflator and the end cap or other components can be propelled into the vehicle, potentially causing an occupant injury if the vehicle is occupied.

Remedy

Dealers are to replace left and right front and rear row seat RRAB modules.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact GMC or visit GM's website. (https://my.gm.ca/gm/en/recalls)

Stolen Vehicle Check

This vehicle is not actively declared stolen.
