Recall #: 48VT | STEERING RACK-TO-SUBFRAME MOUNTING CONNECTION Recall Date: 2026 Sep 16

Recall Description

Corrosion at the affected left-hand-drive steering rack-to-subframe mounting connection may lead to a fracture of the bolt head. If the bolt head fractures, the steering rack remains attached to the subframe by only one mounting point. Continued loading may result in a fracture of the steering rack housing, which could lead to a loss of steering capability and increase the risk of a crash..Vehicle testing and field reports indicate that such a housing fracture is most likely to occur during parking or low-speed maneuvering events, where steering loads are particularly high. The condition may be detectable by unusual metallic rattling or knocking noises originating from the front axle area. Owners with vehicle concerns are advised to contact an authorized Volkswagen dealer to have the vehicle concern diagnosed.

ICBC Disclaimer

The information supplied by ICBC is a report of the vehicle's status and the vehicle's claims history. Vehicle status shows whether a vehicle is qualified to be licensed and is used to track:

- vehicles sold by insurance companies as salvage
- salvage vehicles which have been rebuilt, inspected, and relicensed
- wrecked vehicles that have been decommissioned and can only be resold for parts

The vehicle status may not represent the vehicle accurately for a number of reasons, including a written-off vehicle that hasn't been reported to the B.C. vehicle registry or a vehicle with major damage that was repaired by its owner. The vehicle claims history is a report of vehicle damage and includes repairs paid by ICBC and outstanding damage estimates. It may be incomplete for various reasons, including the owner did not make a claim to ICBC or ICBC has denied the claim. In addition, the estimate information may not necessarily reflect the actual cost of repairs, list the area of the vehicle that sustained the greatest force of impact, or indicate the primary area of damage.

Consumers are encouraged to read ICBC's full statement of limitations at <http://apps.icbc.com/registration/vchr/Limitation.html>.

ICBC recommends the vehicle be inspected by a qualified mechanic to obtain a more complete assessment of the vehicle's condition.
