Other: _____

The above-checked elements were found to be in satisfactory condition on the date of inspection(s). The inspected equipment described above may be considered as safe for use. This certification is valid at the time of certification and for the one-year duration; however, it is contingent on the owner and operators' complete conformance to OHS Regulation Part 13 or 14 (as applicable), manufacturers guidelines for maintenance, and/or additional legislation of the appropriate jurisdiction. Inspections and certification were performed in accordance with EGBC Annual Equipment Inspection and Certification in BC Version 1.1 December 10, 2020.

1. **Inspection Dates:** Structural: 18 Feb 2025; Mechanical & Controls: 18 Feb 2025

2. **Certification Date:** 10 Mar 2025

3. **Recertification Date:** 18 Feb 2026

Statement of Conformance

In my capacity as a Professional Engineer, registered in the Province of British Columbia, and employed by Tetra Tech Canada, I hereby state that the above described testing and reporting was carried out and completed in general conformance with the appropriate procedure and specifications; that there were sufficient inspections by me or by qualified persons working under my direct supervision to demonstrate conformance to the specifications; that I accept that they are compliant and fulfill the full requirements of the annual use certification; and that I have reviewed and approve them.
