Model	PK 8.501 SLD	Inspection Due	January 2, 2027
Serial Number	100430761	Unit#	19PK04
Capacity	11,800 lbs		
Inspector Name (NDT)	Brent Woods		
Applicable Notes			

Icon Energy Services Ltd's technical staff performed visual and non-destructive examination of accessible structural load bearing components on the aforementioned equipment in accordance with Icon Energy Services Ltd's procedures, industry standard practices, and/or OEM recommendations as applicable. Upon final inspection of the equipment and any repairs recommended or performed, no unacceptable defects were noted.

Based on the results of our final inspection and assessment, it is our opinion that the aforementioned equipment is structurally safe for use with regular inspections as per the standards and regulations below as applicable.

Note: BC OHSR Regulations require an additional mechanical and control certification not covered by this certification document.

This Certification is Valid for 1 Year

Applicable Codes (Current Ed)

- CSA Z150 – Safety Code on Mobile Cranes
- CSA Z150.3 – Safety Code on Articulating Boom Cranes
- Occupational Health and Safety Code (Alberta) – Part 6
- Occupational Health and Safety Regulation (OHSR - British Columbia) – Section 14
- Occupational Health and Safety Regulation (OHSR - Saskatchewan) – Section XIII
