| INSPECTION DATE:      | November 6, 2025        |
| RECERTIFICATION DATE: | November 6, 2026        |

## CONDITIONS OF USE:

1. Identification and rating to be permanently affixed in a visible location
2. Visually inspect equipment prior to each use
3. Maintain equipment in good condition

## CERTIFICATION:

Index NDT Inspections Limited performed a VISUAL AND MAGNETIC PARTICLE inspection on the above-mentioned MOBILE CRANE. All observations have been recorded and are disclosed in the Index NDT Inspections Ltd. report for the MOBILE CRANE with the serial #100173279. The scope of this certificate is limited to the inspection of item's structural condition at the time of inspection and does not imply a review of the equipment's design or it's associated capacity rating. The capacity noted above reflects the original equipment manufacturer's maximum capacity rating and may be reduced by operating conditions, regulatory requirements and the use of auxiliary equipment that has a lower capacity rating.

The undersigned Engineer reviewed all the inspection reports and has issued this certificate after all repairs (if any) were completed. In the undersigned engineer's opinion, the MOBILE CRANE #100173279 may be returned to service and operated within the original manufacturer's specifications. The equipment owner must provide the OEM's operating instructions with the equipment and maintain the OEM's identification and capacity markings. If OEM cannot be obtained, certified replacements must be obtained.

## VALIDATION:

This certification covers the above-mentioned unit for a period of 1 year from the "inspection date" listed above, or until the unit is damaged by handling, transportation or operation, at which time non-destructive testing of the welds must be performed, as per CSA Z150 series of codes.
