Report No. 81848666

**As Found Report**

Job Number: 26068

Client: Keyera

LSD: Keyera fort Saskatchewan

Equipment ID: Tank numbers #4018, #4004, #4034, #4005

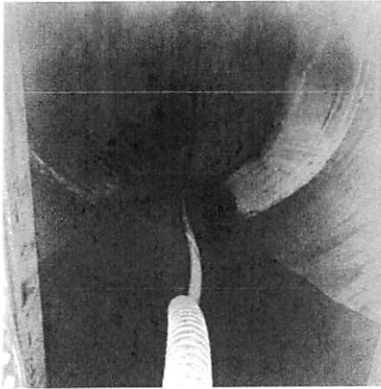

Date: May 21st 2026 09:32

**As Found Condition of equipment:** Arrived at R/T rentals to clean 400 bbl tanks from keyera fort Saskatchewan site. Open man ways on all 4 tanks, inspect debris left in tanks from site. Small amount of debris in all 3 slop tanks, fresh water tank was clean but still washed, degreased & continued on. Scrubbed tanks with degreaser & let it soak. Utilized high pressure from wash pump and hot water to wash tanks.

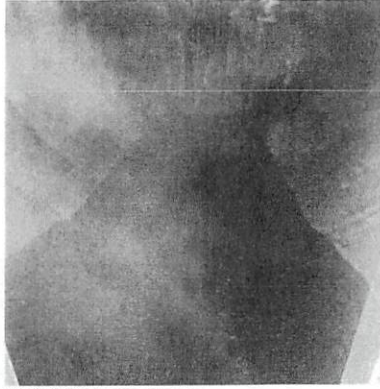

**Photos of Equipment** None

**NOTES**

Debris from slop tanks left standing in tank, used pressure washer pump, chemical former/chemical canister to apply and wash debris on floor, walls and roof of 400 bbl tanks. Lemonlite, envirosol and PinkRoc in tanks to degrease and de-gas. Wash chemical and debris with hot water and higher pressure.
