## Open Recalls

Recall #: N212328800 | Front Passenger Airbag Takata Inflator - Priority Group 10    Recall Date: 2021 Feb 05

### Recall Description

TK Holdings Inc. ("Takata") has decided that a defect which relates to motor vehicle safety exists in the passenger-side frontal airbag inflators installed as original equipment in certain 2007 to 2014 model year Cadillac Escalade, Escalade ESV, and Escalade EXT vehicles; certain Chevrolet Avalanche, Silverado 1500, Silverado 2500/3500, Suburban, and Tahoe vehicles; and certain GMC Sierra 1500, Sierra 2500/3500, Yukon, and Yukon XL vehicles. The determination was made that the propellant in these inflators may degrade after long-term exposure to high humidity and temperature cycling, which could cause the inflator to rupture during a deployment.

### Remedy

Dealers will replace the passenger-side frontal airbag inflator.

Recall #: N140696 | IGNITION LOCK CYLINDER BINDING    Recall Date: 2015 Feb 04

### Recall Description

General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2011 – 2012 model year full-size trucks and SUVs. Certain of these vehicles may have an ignition lock actuator with an outer diameter that exceeds specifications. These ignition lock actuators may make turning the ignition key difficult and the ignition key could get stuck in the “start” position if the vehicle’s interior ambient temperature is sufficiently high. If the vehicle is driven with the key stuck in the “start” position, and the vehicle’s interior temperature cools or the vehicle experiences a significant jarring event, the ignition lock cylinder could move out of the “start” position, rotate past the “run” position, and move into the “accessory” position.

### Remedy

Dealers will inspect steering columns for identifying information (date code and/or production cavity number) and replace if necessary, the ignition lock housing, free of charge.
