ATTENTION!

In case of selling the machine, this declaration should also be transferred to the new owner.

Warranty conditions

1. The manufacturer shall ensure good quality and efficient operation of the equipment for which a warranty card is issued within 12 months of the date of sale. However, not more than 24 months after the dateof manufacture.

2. Defects or damage to the equipment resulting from *the* manufacturer's fault or occurring during normal operation and disclosed during the warranty period will be removed free of charge within 14 working days.

3. Warranty complaints do not cover parts mechanically damaged parts: e.g. damaged or worn hydraulic lines, damaged sockets and distributor mounting kits, broken steering lines etc. The damaged parts shall be replaced at the user's cost.

4. This warranty only covers liability for defects in the product at the time of sale and in particular does not cover defects in the product:

a) normal wear of the product
b) physical and chemical effects of damage to equipment components caused by impacts, shocks or by chemicallyaggressive substances or environments
c) damage resulting from improper use or overloading of the product
a) damage caused by repairs carried out by unauthorized persons or by the use of parts not approved by themanufacturer
d) damage
e) caused by non-observance of the operating and maintenance instructions for the appliance
b) damage caused by the owner's
c) failure to immediately report a defect that was noticeable at the time of purchaseor subsequent use of the product
d) the manufacturer does not take responsibility for replenishing hydraulic fluids.

5. The warranty is revoked as a result of any technical changes made by the user.

6. The complaint should be submitted within 14 days from the detection of the defect under pain of loss of warranty rights. The date of complaint shall be deemed to be the date of its direct receipt by the Manufacturer.

7. The warranty will be honored by Metal-Technik after the customer presents the warranty card and the receipt or VAT invoice. The manufacturer may refuse to perform warranty repair if any discrepancies are found in the documents and on the equipment.

8. Defective equipment such as cylinders, wires, etc. plus complaint documents are delivered to the manufacturer by the buyer or the point of sale at its own expense.

9. Defects or damage should be reported to the point where the equipment was purchased.

10. This warranty period will be extended by the warranty repair lead time.

11. The warrantor's duties on behalf of the manufacturer are performed by the seller.

12. The term "warranty repair" does not include activities provided for in the operation manual, which the user is obliged to perform on his own, e.g.: lubrication of calamities before starting work, regulations.

13. Any and all amendments to the text of the warranty card are valid only after the Manufacturer* of the machines and equipment has made them
