2018 CAT 336GC
SN#CAT00336AEBJ00151

Date	Purchase Price	Maintenance Item	Hours	Description
October 15 2024		Hardline replacement	4753	Removed damaged line on stick, replaced
October 30 2024		PM#1	5254	Engine oil, final drive oil, oil filter, fuel filters
November 4 2024		Lift pump replacement	4753	Lift pump replaced, crankcase filter replaced, belt replaced
January 24 2025		PM#2	5792	Engine oil, final drive oil, oil filter, fuel filters, primary/secondary air filters, cabin air filter
April 11 2025		DEF overhaul, PM#1	6428	Remove DEF enclosure, cap and remove coolant hoses, disconnect DEF lines, blow out DEF injector, flush tank, install new DEF header, sock, senors etc.
August 19 2025		PM#2 Plus		Fuel filters, oil filter, primary air filter, secondary air filter, cabin air filters, hyd. Filters, DEF filters
September 16 2025		Aux line		Install new hyd. Whip hose on stick
October 29 2025		Damage Inspection **Sunk in skeg	6504	Remove panels under engine/rad remove mud from frame, inspect unit, right rear door damaged, several pans damaged, front panels damaged, confirmed mechanically sound
November 3 2025			6506	Install hydraulic whips on stick
November 17 2025		Coolant Leak		Remove pans, inspect coolant leak, tighten hose clamps, add 2 jugs ELC, test, re torque bottom of resevoir
November 28 2025		PM#1	7192	PM#1, top up swing drive oil, top up hydraulic oil, top up coolant, repair coolant leak at heater hose
January 12 2026		Auxilary whips cracked		Repair auxilary whips pinched in h link
January 23 2026		Remote oil filter hoses		Change both remote oil filter hoses and test
March 19 2026		PM#2	7779	Preformed PM#2
March 10 2026		Undercarriage Parts	7779	FINNING Quote #0095530331
March 25 2026		Hardlines/Pins/Bumper	7779	FINNING Quote #0095539635
March 25 2026		Pad Swap	7779	FINNING Quote, 12hrs for 336
August 5 2026		Step/Track guide repair		Straighten/replace all steps, one inside track guide
September 1 2026		Main Pin Keeper		Replaced temporary main bucket pin keeper
September 4 2026		Codes/Inspection	7727	Investigate apparent engine codes, no saved or active codes. Logged events: low intake manifold pressure, high outlet O2 concentration, regen inhibited due to low exhaust pressure. Inspect inlet and exhaust system major exhaust leak around manifold and expansion tube, run and verify loss of exhaust.

September 6 2026		Manifold Repair	8478	Disassemble upper turbo and exhaust manifold, extract broken exhaust manifold bolts, remover EGR cooler exhaust inlet, extract broken bolts in EGR cooler and repair threads, assemble with new gaskets, run to temp and test for leaks
September 26 2026		PM#1	8500	Completed PM#1
October 2 2026		Expansion Tank, Belt	8500	Replaced expansion tank, serpentine belt, and bucket cylinder hardline bracket
