Date	Purchase Price	Maintenance Item	Hours	Description
July 15 2025		Cable swap	6813	Swap cable over to 3/4 from 5/8 with supplied wedge and clamps.
July 22 2025		Post job inspection		Inspect unit and perform all function tests, check all fluids and filters, clean all breathers, grease all joints, check all linkages, perform click count on brakes and record, adjust brakes, preform brake test
July 26 2025		LED light install, PM#2		Wire in work lights and test, Engine oil, final drive oil, oil filter, hydraulic oil, drain torque converter and check screen
July 27 2025		Winch oils		Change load line winch oil, change boom winch oil, extract stripped plugs and drain finals, check final drive mags, drain tow winch oil, pull winch suction screen and filter, remove all external covers, clean out milky oil and reseal covers, clean bearing retainers
July 28 2025		Finals, winch		Fill final drives, fill winch
July 31 2025		PM#2 +		Pull transmission suction screen, inspect and clean, change trans filter, fuel filters, fuel strainer, hyd. Filter, oil filter, adjust fan belts, extract stripped out sprocket guard bolts, exchange segments
August 1 2025		Misc.		Exchange sprocket segments, install hyd. Fill screen, replace seat belt assembly, repair seat latch assembly, repair several spro cket mounts
September 27 2025		Counterweight cylinder		Removed counterweight cylinder to be re sealed, capped hoses
November 6 2025		Counterweight cylinder		Reinstalled resealed counterweight cylinder
December 5 2025		Misc.		Replace fuel cap, install fuel fill strainer
December 8 2025		Fan belts		Replace fan belts
December 16 2025		Carrier roller		Grind out and extract old welded in carrier roller, free up pinch bolts on both right carriers, replace rear right carrier roller
December 31 2025		Carrier roller		Replace front right carrier roller, adjust throttle linkage and low idle
January 24 2026		Mirror		Reposition mirror mount
February 1 2026		PM#1	7050hrs	Completed PM#1
February 5 2026		Boom Kick Out		Replace boom kick out valve and test, pull floor panels and replace leaking oring
February 8 2026		Low Power Complaint		Investigate low power concern, check filter, sooted up from exhaust leak, remove air pre-filter and clean out, remove hood and inspect turbo, repair muffler exhaust leak, install muffler, test run unit, run up to temperature, test driveability and all functions
February 10 2026		Work Light Harness		Diagnose and repair open circuit in work light harness, replace inner and outer air filters, remove load line from sheaves and drum, re spool
April 13 2026		Fan hub, Torque converter		Repalce fuel tank suction valve and drain bottom of tank, remove driveshaft and send out for u joints, replace torque converter output seal, replace leaking gasket on torque converter, repair leaking fittings at torque converter, remove fan hub, rebuild and install

August 16 2026		**PM#1, amp meter**	**7250hrs**	**Preform PM#1, replace broken amp meter**
