Peterbilt Inspection

- 1 Peterbilt Platinum Courtesy Inspection
CAUSE:
Courtesy

CORRECTION:

Completed Peterbilt Platinum Courtesy Inspection

TOTAL LABOR

0.00

- 2 DIAGNOSE AND REPORT ENGINE LIGHT Default Variation
CAUSE:
DEF Pump and harness

CORRECTION:

Connected to truck and scanned for codes. Found Code p3904. Def pump module voltage low. Followed troubleshooting. Found that the connector on def pump was full of DEF and pins are corroded. Traced connectors to make sure that there was no corrosion on the other 2 connectors. Unit requires a new DEF pump and harness.

Removed the bracket that the pump is mounted to. This bracket is mounted to the tank support brackets. Two mounting studs broke off when trying to remove. Removed and replaced the DEF pump, harness and mounting studs. Connected with Davie and pressurized the DEF system. No leaks and the stop engine light went away. Checked codes, all inactive, cleared codes. Verified operation.
