Description	Mechanic	Quantity/Hours	Amount
1 Complaint: Center axle does not lock. Click in the diff lock and it just grinds and will not engage			.00
1 Cause: Broken			.00
1 Correction: Pulled first divider because inner axle was not spinning while loaded. Power divider was missing the pump. Installed new pump. Put power divider back together and in. Brought truck out and put against bed truck to test diffs. Brought back in and pulled middle diff power divider, shift fork and shift collar were worn out, replaced. Pump fell out of mushroom gear. Put a new pump, bearing, and mushroom gear on. New shift collar and fork put in, tightened bolts, driveline. Pulled secondary airtank above the D/S step out because the bracket was broken, also had a crack under the battery box. Put tank back in once fixed and tested for airleaks.	Keydon Payne	16.00	1,600.00
1.1 Correction: Repaired Bracket for the Air tank, Cleaned bracket to clean Aluminum and Tacked Pieces in Place, Slip Cut Seem and welded both sides. Moved Welder into Position and Welded 1 of two cracks on Battery box unable to weld one of the cracks could not get spool gun in to the crack	Mark Carroll	1.00	100.00
