

Description	Work Done	Completed
Inspection - Front End Loader	As per work order	09/25/2024
Caterpillar 988H Front End Loader (A service)	As per work order	09/16/2024
Fire Suppression Systems Inspection	Not required	09/10/2024
Inspection - Front End Loader	As per work order	09/10/2024
Inspection - Front End Loader	As per work order	09/03/2024
Inspection - Front End Loader	As per work order	08/27/2024
A/C U/S	Remove & replace A/C compressor & receiver dryer, Gas system	08/24/2024
Inspection - Front End Loader	As per work order	08/13/2024
Caterpillar 988H Front End Loader (B service)	As per work order	08/06/2024
Inspection - Front End Loader	As per work order	08/06/2024
Tilt function U/S	Replace tilt lever in cab	07/29/2024
Inspection - Front End Loader	As per work order	07/23/2024
Inspection - Front End Loader	As per work order	07/16/2024
Inspection - Front End Loader	As per work order	07/10/2024
Inspection - Front End Loader	As per work order	07/09/2024
Wire UHF to stay on without ignition on	Not required	07/23/2024
Caterpillar 988H Front End Loader (A service)	As per work order Marvin Gomez	06/24/2024
Replace Beacon with LED beacon	Beacon replaced	08/07/2024
Inspection - Front End Loader	As per work order	06/18/2024
Electrical faults	checked cab wiring. located Broken earth strap and repaired tested systems ok	06/12/2024
Ordered rear work lights to be replaced. constant power supply requested for 2 way check with Wayne	As per work order	07/23/2024
Hydraulic hose weep near hydraulic filter	Tightened filter assembly	07/08/2024
Inspection - Front End Loader	As per work order	06/12/2024
Inspection - Front End Loader	As per work order	06/04/2024

Caterpillar 988H Front End Loader (D service)	As per work order	05/28/2024
Inspection - Front End Loader	As per work order	05/28/2024
Inspection - Front End Loader	As per work order	05/21/2024
REPAIR CAB FAN/ FILTER & HEATER TAP	ORDERED	05/21/2024
Inspection - Front End Loader	As per work order	05/14/2024
Inspection - Front End Loader	As Per work order	05/07/2024
Caterpillar 988H Front End Loader (A service)	As per work order	04/29/2024
Inspection - Front End Loader	As per work order	04/29/2024
Inspection - Front End Loader	As per work order	04/22/2024
Inspection - Front End Loader	As Per Work Order	04/15/2024
Westrac FEL00014 Starter motor fault 11/04/24	Westrac FEL00014 Starter motor fault 11/04/24	04/11/2024
Inspection - Front End Loader	As per work order	04/08/2024
Inspection - Front End Loader	As per work order	04/01/2024
Caterpillar 988H Front End Loader (B service)	As per work order	03/21/2024
Inspection - Front End Loader	As per work order	03/26/2024
A/C fault FEL00014	A/C GAS-FOUND HIGH PRESSURE PIPE LEAKING & EVAP BLOCKED -ADVISED QUBE OF REPAIRS NEEDED BEFORE WE CAN REGAS	02/29/2024
Caterpillar 988H Front End Loader (A service)	As per work order	03/03/2024
Electrical faults	Inspect & repair	03/05/2024
Inspection - Front End Loader	As per work order	03/19/2024
Inspection - Front End Loader	As per work order	03/12/2024
Electrical faults	Electrical faults	03/03/2024
Fire Suppression Systems Inspection	Inspections carried out on a weekly basis	02/20/2024
Inspection - Front End Loader	As per work order	02/26/2024
Air filter supply	Air filter supply	02/13/2024
Repair oil leaks	Trans Hose replace Rocker cover gasket replace	03/03/2024
Inspection - Front End Loader	As per work order	02/19/2024
Inspection - Front End Loader	As per work order	02/13/2024
Inspection - Front End Loader	As per work order	02/06/2024

TOOLING KIBBLE PAD	TOOLING ORDER	01/30/2024
Parts supply	As per work order	02/01/2024
ALTERNATOR FAILURE	ALTERNATOR CHANGED	01/21/2024
DEFECTS	As per work order	03/05/2024
DEFECTS	As per work order	02/01/2024
Inspection - Front End Loader	As per work order	01/30/2024
Inspection - Front End Loader	INSPECTION COMPLETE	01/20/2024
DEFECTS	REF WO-GFN-004-881 FOR ADDITIONAL TASKS AND COMPLETED TASKS	01/24/2024
Inspection - Front End Loader	INSPECTION COMPLETE	01/11/2024
DEFECTS	REF WO-GFN-004-883 FOR ADDITIONAL TASKS	01/24/2024
DEFECTS	REF WO-GFN-004-660 FOR CORRECTIVE ACTION	12/26/2023
ALTERNATOR OVER CHARGING 34V	ALTERNATOR CHANGED OUT MACHINE PLACED BACK IN SERVICE	12/28/2023
Caterpillar 988H Front End Loader (C service)	B SERVICE COMPLETED 21/11/23 C SERVICE COMPLETED 11/1/24	01/11/2024
DEFECTS	2, CRACK ASSESSED, UNABLE TO LOCATE ANY CRACK IN TYNE REMAINING DEFECTS OPENED ON WO-GFN-004-586	12/12/2023
Caterpillar 988H Front End Loader (A service)	REF WO-GFN-004-256 FOR COMPLETION	11/21/2023
DEFECTS	1. NEW WO RAISED FOR OIL LEAK  2. AUTO GREASER ASSESSED, ADJUSTMENT MADE TO TIMING, ASSESSED AS SERVICEABLE  3. LIGHTS CHECKED AS PART OF SERVICE  4. KEY WORKS WHEN TURNING MACHINE OFF	11/21/2023
Caterpillar 988H Front End Loader (B service)	SERVICE COMPLETED	11/21/2023
Caterpillar 988H Front End Loader (A service)	Ref WO-GFN-004-256 B service for completion	11/07/2023

Defects	Auto greaser requires loom	
	oil leak rear rocker cover	10/15/2023
	battery light, poor contact in wiring, rectified	
Caterpillar 988H Front End Loader (A service)	A SERVICE - B.MILLER & A. JOHNSON	10/15/2023
Caterpillar 988H Front End Loader (B service)	completed	09/18/2023
SEAT AIR SWITCH N/W	checked operation, no fault found	09/18/2023
Caterpillar 988H Front End Loader (C service)	completed	09/18/2023
	Josh and Lloyd	
Caterpillar 988H Front End Loader (D service)	completed	09/18/2023
	Josh and Lloyd	
Fire Suppression Systems	still in date	09/19/2023
warning light on dash	changed out hydraulic filter	08/24/2023
Repairs	tested charging circuit no fault found	08/14/2023
	replaced step assembly	
Caterpillar 988H Front End Loader (B service)	completed service	08/14/2023
Caterpillar 988H Front End Loader (A service)	Service asset as per attached service sheet	07/08/2023
	cam	
Rotator will not rotate anti clock wise	repaired wiring next to valve block	07/09/2023
Caterpillar 988H Front End Loader (A service)	Service asset as per attached service sheet	07/01/2023
FAULTS	checked charging light fault, replaced fuses	07/01/2023
	repaired auto greaser wiring	
	fitted new revers lights	
	checked dash lights ok	
Caterpillar 988H Front End Loader (C service)	Service asset as per attached service sheet	06/08/2023
defects	CHECKED ALL OKAY	06/08/2023
Rear Step RHS / Battery light	Weld rear step RHS and ladder	05/04/2023
	Inspect wiring for battery light flashing	

damage repairs	Fixed broken wires on auto greaser repair r/h steps and grab rail - no fix required replaced alternator washed engine check for leaks	05/04/2023
breakdown	Welded up crack in Tyre Found loose hydraulic hose - tightened	04/10/2023
Caterpillar 988H Front End Loader (A service)	Service asset as per attached service sheet Repair fan circuit oil leak	05/04/2023
damage repairs	New work order created	05/03/2023
Damage repairs	refer 002-770	04/20/2023
REPAIR FORK / REPLACE WIPER	REPLACE FRONT WIPER ARM WELD LEFT FORK (CRACKED TOP REAR)	04/12/2023
Caterpillar 988H Front End Loader (B service)	Service asset as per attached service sheet	03/29/2023
oil leak at rotator	removed front cover from rotator  removed drive motor and Broken bolts  refitted drive motor with new bolts  made up and fitted new hose  <del>tested operation refitted front cover plate</del>	03/15/2023
Caterpillar 988H Front End Loader (A service)	Service asset as per attached service sheet REPLACED LEAKING FILTER	03/26/2023
DEFECTS	REPAIRED ROTATOR ELECTRICAL FAULT  TESTED AUTO GREASER OK  <del>ROTATOR STARTS AND STOPS REPAIRED WIRING</del>	03/27/2023
Caterpillar 988H Front End Loader (D service)	Service asset as per attached service sheet	02/19/2023
Caterpillar 988H Front End Loader (A service)	Service asset as per attached service sheet	02/19/2023
WELD UP CRACK IN TINE	WELD UP CRACK IN TINE	01/26/2023
Caterpillar 988H Front End Loader (B service)	DUPLICATE OF 002-312 C-SERVICE	01/24/2023
weekly rotator inspection	weekly rotator inspection and grease	12/19/2022
Caterpillar 988H Front End Loader (C service)	DUPLICATE OF 002-316 C-SERVICE	01/24/2023
Caterpillar 988H Front End Loader (C service)	Service asset as per attached service sheet	02/22/2023

	Service asset as per attached service sheet	
Caterpillar 988H Front End Loader (A service)	replaced cabin filters	01/14/2023
	serviced rotator / greased / check over	
Caterpillar 988H Front End Loader (A service)	double up from 002-288	01/16/2023
	checked engine oil leak, minor	
engine oil leak	cracks in tines to be monitored	01/14/2023
	seat still to be done	
	checked reverse lights.	
Chassis and frame	auto greaser fault E13	01/01/2023
	new job opened	
light on dash	checked and replaced hydraulic filters	10/24/2022
	rechecked ok	
weekly	carried out weekly check over	11/15/2022
Caterpillar 988H Front End Loader (B service)	Service asset as per attached service sheet	11/24/2022
	replaced diff cooler	
	repaired leaking grease lines	
Caterpillar 988H Front End Loader (A service)	Service asset as per attached service sheet	10/19/2022
	replaced auto greaser hose	
	replaced hydraulic hose on load frame	
	replaced work lights	
	welded exhaust bracket	
	replaced dash bulbs	
	repaired fan speed	
	replaced heater control	
	fitted bucket	
minor repairs	replaced r/h rear tail light	10/09/2022
	replaced front l/h work light	
	replaced wiper linkage and blade	
	topped up auto greaser	

More Defects	replace work lights replace wiper linkage and motor replace dash lights replace heater control	10/14/2022
DEFECTS	REPLACED BEACON ADJUSTED AUTO GREASER TIMER SECURED ROTATOR MOTOR REPLACED HEATER TAPS ORDERED WORK LIGHTS ORDERED DASH BULBS	09/19/2022
REPAIRS	as per 001-959	07/10/2022
Caterpillar 988H Front End Loader (D service)	off site for major repairs	04/20/2022
Caterpillar 988H Front End Loader (A service)	Carried out A service	02/15/2022
Caterpillar 988H Front End Loader (B service)	A SERVICE COMPLETED - NEED ENGINE OIL	03/06/2022
Caterpillar 988H Front End Loader (A service)	Carried out A service as required. Following faults recorded and require parts - 2 x Axle Temp Sensors - 288-8390 1 x Hydraulics pressure switch assembly - 376-7257 1 x Trans Temp Sensor - 118-7226 1 x Hydraulic Temp Sensor - 288-8390	01/19/2022
Caterpillar 988H Front End Loader (C service)	Carried out C service as required	12/13/2021
Caterpillar 988H Front End Loader (A service)	Carried out A service as required.	11/28/2021
Carry out weekly rotator inspection	Carry out weekly rotator inspection	04/28/2022
Carry out weekly rotator inspection	Work completed as per work order	11/19/2021
Check and report on free play in the rotator.	Work completed as per work order.	11/19/2021
Caterpillar 988H Front End Loader (B service)	Carried out B Service as per schedule  Check in between trucks and keeping topper in plant full.	11/19/2021

Caterpillar 988H Front End Loader (A service)	<p>POS 3/4 40% left / POS 1/2 90% left - All 80PSI - Now A service.</p> <p>Replace wiper blades , grease and inspect rotator, 1 bolt loose, spring asher failed, replaced.</p> <p>Working lights fitted, first aid placed in cab.</p> <p>Parts used -</p> <p>Air Filter</p> <p>Wiper Blades</p> <p>First aid kit</p> <p>Oil Filter</p> <p>Engine oil</p> <p>Element Filter</p> <p>Work Lights</p>	10/30/2021
Windscreen	Windscreen replaced by Deans Autoglass	09/24/2021
Rotator INOP	Fit new motor. Fit new spike protection valve & test - all OK	08/11/2021
Hydraulic hose	<p>Hose replaced on service</p> <p>See WO-GFN-000-591</p>	08/10/2021
Caterpillar 988H Front End Loader (D service)	Service completed as per sheet	08/10/2021
Caterpillar 988H Front End Loader (B service)	B service completed at Yaka site	04/22/2021
Rear R/H step repairs	<p>Inspected R/H Step</p> <p>Remove step and weld up</p> <p>Refit step</p> <p>Return to work</p>	05/22/2021
Grease Rotator, check and repair oil leaks x3	<p>Move loader to workshop</p> <p>Remove Front cover</p> <p>Found oil leak at pump motor hose and one leak on valve</p> <p>Remove and reseal leaks</p> <p>Grease unit</p> <p>Check oils</p> <p>Return to work</p>	05/19/2021
Transfer case suction hose leaking.	<p>Suction hose change Trans.</p> <p>Suction hose x 1</p>	01/29/2021

Hydraulic oil cooler leaking.	Replaced cooler, topped up fluid. Hydraulic oil cooler x 1	01/29/2021
R/H Tine snapped. L/H Tine cracked.	Replaced tines, torqued. Retorqued 14/05/2021. Tines x 2	05/14/2021
Caterpillar 988H Front End Loader (B service)	WORK COVERED BY WO-GFN-000-093	05/04/2021
Caterpillar 988H Front End Loader (C service)	C service completed.	06/25/2021
Lights not turning on	Carried out wiring repairs.	06/14/2021
Repair RH step, Repaired wipers	Check R/H lower step mount bolts. Both had pulled through rubber and step was bent. Redrill and change out bolts, reassemble. Remove centre section of step which was rusted and had broken off, fab replacement end to mount, refit to unit, test.	04/08/2021
Hydraulic oil leak	Run and check leak, remove failed hose from unit, return to workshop. Make up hose to suit from available stock, return and fit, top up oil, run and check. Clean down, return to workshop  25,977 hours  Hose (S/hand) site stock	03/10/2021

Rotator fault	<p>5/3/21 Fuel unit, check grease points (2) not taking grease Clean out blocked holes, grease all points. Reassemble, check operation</p> <p>6/3/21 Position at work shop, check rotor operation and locking Grease, test, check movement in race bearing (lots) Return to work, monitor, parts required</p> <p>7/3/21 Return to work shop, remove covers, inspect bearings (inner). Clean and repack, reassemble, grease and test. Return to work, monitor, parts still required</p> <p>18/3/21 In preparation for repairs, clean out hitch release pins to remove. Both seize as have never been operated, will continue to lubricate to attempt to remove. Hitch pins need to be released to remove rotor for repairs</p> <p>21/3/21 Unpack, inspect all received parts, work off list. Move unit to work shop. Support, remove rotator assemble from machine for repairs to ring gear / drive gears.</p> <p>22/3/21 Unpack required parts, inspect and check off Move machine into work shop, support frame, dismantle front and rear sections of rotor for repairs</p> <p>23/3/21 Clean all parts, change gears, bearings, reassemble. Seal all covers, change over slew ring, torque bolts. Assemble front to rear section of rotator</p> <p>25944 Hours</p>	03/05/2021
Caterpillar 988H Front End Loader (B service)	<p>Carried out 500 hour service Repair hydraulic line Refitted rotator</p> <p>26160 Hours</p>	03/24/2021
Repair rotator guard	<p>Position in work shop Remove front guard from rotator Clean, check and repair threads, seal and refit cover Test and check, return to operation</p> <p>25830 Hr</p>	02/26/2021

Caterpillar 988H Front End Loader (B service)	WO-NGF-001-445 25,487 hours	01/30/2021
R/H middle step on ladder broken off on one side.	25314 km Fitted new step	01/20/2021
Rotator motor & bolts loose/ worn.	Replaced Rotator motor, adjusted bolts, lubricated rotator. 25110 hr	01/04/2021
Caterpillar 988H Front End Loader (C service)	WO-NGF-001-445 25,489 Hours	01/30/2021
Hydraulic fault	Replaced all hydraulic fittings 24693 Hr Parts used: 5x hydraulic fittings	12/08/2020
Caterpillar 988H Front End Loader (B service)	WO-NGF-001-445 25,487 hours	01/30/2021

Caterpillar 988H Front End Loader (D service)	<p>Carried out 2,000 hour service</p> <p>Replace diff cooler</p> <p>Replace gearbox hose</p> <p>Fitted new steering lube</p> <p>25,482 hours</p> <p>Parts</p> <p>1x 106 - 3969 air filter</p> <p>1x 326-1644 fuel</p> <p>1x 1R-1808 oil</p> <p>3x 222 - 6713 hyd</p> <p>2x 465-650 hyd</p> <p>1x 337-5270</p>	01/30/2021
Caterpillar 988H Front End Loader (A service)	<p>250 hour service</p> <p>Filter isolator</p> <p>24,008 hour</p> <p>Parts</p> <p>Filter kit</p>	10/29/2020
Caterpillar 988H Front End Loader (C service)	Service asset as per attached service sheet	10/30/2020
Coolant leak replace radiator cores	<p>Remove and replace radiator cores</p> <p>Replace coolant</p> <p>23,400</p> <p>Parts Used:</p> <p>Coolant</p> <p>Radiator cores and seals</p>	09/10/2020
Coolant Leaks	<p>Move to workshop, remove covers, clean and dry, pressure test. Locate another coolant leak at a further 3 core assemblies, parts required asap</p> <p>23,310km</p>	09/03/2020

Coolant leak	<p>30/8 - run and check coolant leak, top up, locate and move to workshop. Remove all covers to access and locate, clean down, carry out temp repairs. Run and check, re-assemble, return to unit</p> <p>31/8 - move to workshop, remove guards, chain cooling system, remove failed core assemble, clean all surfaces, seal and fit new core. Comp into position, connect lines, fill with coolant. Run and check, wash, refit covers, top up. Warm up, check for leaks, return to operations</p> <p>Km/Hrs 23,285Hr</p> <p>Parts Used Radiator Core 387-4366 x1 Clamps 1P-4278 x12 Hose 106-4572 x8 Seal 61-2431 x6</p> <p>Needs 5 more radiator core assembles</p>	08/31/2020
Repair time	<p>Position at work shop, clean all surfaces, tac into position, weld plate back into position and return to operation</p> <p>23,252Hr</p>	08/26/2020
Start Fault - starter motor	Travel to unit in mill and remove starter motor. fit new started motor. refit covers. machine returned to work	08/20/2020
Oil Leak (Hydraulic)	<p>Return to site after hours, check oil leak and locate. Top up and monitor. Once task completed ( unload, fill topper) remove guards, remove hose, check stock N/A</p> <p>Move hose dimensions, get hose made on site, return and fit. Tie and protect, run and check, top up oil, run and test. Refit covers, rear guards, check for leaks, recheck oil and top up</p>	08/19/2020

Rotator Operation switch, drive gear, bolt	<p>Check switch on cab operation, check new power supply, replace blown fuses, test</p> <p>Check lower rear gear cover loose (missing bolt when bump changes 11.8.20)</p> <p>Clean and inspect, gear retaining bolt loose and damaged threads</p> <p>Replace and reassemble, check where new pump is coming from as it hasnt arrived</p>	08/18/2020
Rotator failed	<p>Position at work shop, remove fan cover, rear gear cover, inspect. Remove pump assembly, found shaft broken. Clean all surfaces, clean up second hand(?) pump, seal and fit. Fit gear, torque retaining bolt, correct hoses, test operation. Seal and fit both covers, grease, return to operation. New pump required</p> <p>Parts used: 1 x second hand rotate pump assembly</p>	08/11/2020
Grease Pod, Oil Leak, High Engine Temp (water)	<p>check engine oil temp running lot, isolate and test, monitor check, unit running cooler - move to work shop, recheck levels, blow out all coolers with compressed air and retest. check grease system, censer has been fitted with two sorts of grease, clean, fill with correct grease 1/3rd full, unit required back in operation continue to fill aoad during the day, monitor tarp pod completely. remove centre r/h access step, return to work shop, cleane, weld, refit to unit at moviing and top up grease pod</p>	08/09/2020
Oil Leak - Hydraulic Hose	<p>Travel to unit, check oil leak, run and check, remove failed hose, remove cover to access. Get hose made on site, return and fit, tie and protect, fit cover, test for leaks. Top up hyd oil, refit floor mate, fuel, return o workshop. Travel to Kibble pad to diagnose hydraulic leak under cab. Help out loading Kibbles onto truck with hyster loader</p>	07/21/2020
Oil leak	<p>Travel to loader. Found engine fan oil hose had failed. Remove failed hose and park up machine. Return to workshop for parts. Travel to make new hose. Return to machine and fit hose. Ran machine up to temperature and inspected for leaks. Refit access guards. Returned to workshop.</p>	07/18/2020

Rotator Valve Mount - broken	Crack noise in rotator assemble (motor), remove front cover. Found valve mount broken, remove mount, tie into position (temp), refit cover, return to operation Unit available, remove cover , repair mounting threads for cover (2x) clean all surfaces, fit mount, fit and align valve, check clearance. Remove valve and weld mounr, refit valve repair threads and change mount bolts, seal and refit front cover	07/08/2020
Oil leak	Travel to unit, clean and inspect oil leak in hose at center arctic area. Test and monitor to locate, return to workshop once located, order parts Return to workshop, relieve system pressure, remove leaking hose. Clean all surfaces, clean out threads, align and fit new hose. Position and torque clamp bolts, protect all hoses, run and check. Top up oil, wash down, return to work, check for leaks	07/03/2020
Check operation of auto grease system, check points for grease & test	Move into workshop, check operation of grease system, test with manual switch, time and operate, return to work and monitor. Check points receiving grease, parts required	07/05/2020
Check operation of beacon, repair wiring in plug & test.	Check operation, check and repair wiring at plug test, reposition loom, tie and protect	06/08/2020
Check oil leak remove pin / rod clean and inspect ,modified pin to suit put back together test	CHECK OIL LEAK AT HITCH PUN AND PIN MOVING OUT LH DISMANTLE AND CLEAN, MODIFIED TO REASSEMBLE PIN/ROD ASSEMBLE TO RAM, REASSEMBLE AND TORQUE UP, MARK PIN TO MONITOR, RETURN TO WORK	05/26/2020
Replace hydraulic hose	Remove seized bolts in hydraulic clamps. Drain fluid, fit new hose with new o rings and test	05/12/2020
Replace wiper motor ( Front )	TEST OPERATION CHECK POWER SUPPLY DISMANTLE DASH AND CHECK WIPER MOTOR ASSEMBLE REMOVE AND CHANGE OUT MOTOR ASSEMBLE, CONNECT, TEST AND ALIGN ARM ASSEMBLE, REASSEMBLE DASH, REPAIR MOUNT FOR PARK BRAKE SWITCH, TEST, RETURN TO OPERATION. CARRY OUT TASTE DURING OPERATION!! C/O SORE WORK, FILL TOPPER, CONTINUE FIT UP!!	05/04/2020

Rotator locking up	Strip out the front end of rotator, remove all nickel dust mixed with the grease. Replace front cover and seal up, regrease the unit and test	04/27/2020
Oil leak	Inspect oil leak, remove guard, removed failed hose. Travel to MtKeith to make hose, return to Leinster, align and fit hose. Run and check.	04/11/2020
Caterpillar 988H Front End Loader (B service)	B Service on kibble loader, repair amber beacon	04/23/2020
Put rotator gear cover	removed rotator gear cover from hyster, modify it. reattached it to missing rotator gear cover	01/15/2020
Carry out weekly service and inspection.	Carry out weekly service and inspection.	01/01/2020
Repair horn and auto greaser.	Repaired horn and auto greaser	12/16/2019
Carry out weekly service and inspection.	carried out weekly check over	12/16/2019
Not charging	replaced alternator	12/13/2019
Check clean and grease rotator gear.	Check clean and grease rotator gear.	12/13/2019
Replace thermostat	Replace thermostat	12/07/2019
Rotator fault	Checked over rotator as the driver said it was moving on its own. Checked and cleaned hydraulic solenoid. Tested OK. Grease rotator.	12/01/2019
Replace coolant	Replace coolant	11/29/2019
Replace pilot pressure pump	Replace pilot pressure pump	11/28/2019
500 hr service	500 hr service as per service sheet	11/28/2019
replace crowd cylinder	replace crowd cylinder	11/17/2019
replace hydraulic filter	replace hydraulic filter	10/30/2019
quick hitch fault	Checked over quick hitch and found hydraulic hose around the wrong way, changed over and tested. OK.	11/04/2019
Hyd leak from rotator control valve block, grease system fault, cracked R/H tyne	checked over tyres cleaned up areas that needed it. check over quick hitch and found hoses that are on the wrong way and changed them around. and tested. tried to use grease system diagnostic tool but needs new software.	11/04/2019
crack in tynes RH side	weld up cracks in tynes	11/27/2019

Carry out 500Hr service	Carried out 500hr service as per sheet attached. Work carried out by Karl from Mader.	10/27/2019
weekly service	Carried out weekly service as per sheet attached.	10/22/2019
Weekly service	Carried out weekly service as per sheet attached.	10/08/2019
Oil leak	Find where the leak is coming from, removed hoses, travelled to MtKeith heavy workshop for hose to be made, travelled back and fitted. Tested all OK.	10/08/2019
250 Hour service	Carried out 250 Hour service as per sheet attached. Flushed out radiator and cleaned.	09/26/2019
Weekly service	Weekly service as per sheet attached. Repaired LH beacon. drained coolant due to possible oil cooler failed and put water and washing powder in. will check in the next few days.	09/23/2019
Call out Charge light coming on dash	Travelled to call out, found charge light bon dash coming on due to build up of dirt on terminal. Removed and cleaned. Tested OK.	09/22/2019
Replace hydraulic filter as requested by Westrac.	Replaced hydraulic oil filter as requested by Westrac	09/15/2019
Weekly service	Carried out weekly service and inspection.	09/15/2019
Steering failed	Travelled to breakdown, checked over steering checked steering diagram before going over to machine. Checked with the driver and had to get Cat to come out. and put gauges on and test ports and found pump failed. Westrac:- checked pump pressures removed and cut filter open and found it full of brass. Machine floated to Westrac Kalgoorlie new pump fitted, hydraulic system flushed.	09/12/2019
No start	When checking over A/C fault noticed it wouldn't start, checked over starting system everything seemed ok. Bypassed starting system and cranked engine over but wouldn't run. Noticed no transmission light on dash to say it was in a gear on neutral. Found fuse to trans ECM failed, replaced fuse Tested Ok.	09/08/2019
A/C not working	checked over a/c fault and found wiring problem around fuse area need further looking over	10/08/2019

Rotator has excessive play	removed cover found that the rotator motor had come loose so removed old bolts and replaced with new ones then refit cover and test all ok	09/01/2019
Carry out 2000 hour service.	Carry out 2000 hour service.	09/07/2019
Repair coolant leak.	Removed and replaced down pipe. removed and replaced coolant hose.	08/17/2019
weekly service	Carried out weekly service as per sheet attached.	08/11/2019
Hydraulic hose leaking RH tilt ram.	Remove and replaced RH tilt cylinder hose.	08/11/2019
250hr service	Carried out 250Hr service as per sheet attached	07/26/2019
Replace drive belt and tensioner	Found strange groove on belt, removed belt and belt tensioner found tensioner had failed. Fitted new tensioner and belt. Tested OK	07/26/2019
Replace leaking transmission hoses	Removed and replaced top transmission hoses. Washed down and tested ok.	07/20/2019
Top up transmission oil due to leaking hose	Top up transmission oil due to transmission hose leaking.	07/17/2019
Weld tyne.	Grind old weld grind out on cracks and weld it. Tyne should be replaced and should be weld properly again, tyne similar to the other side should be fitted. Grind and weld cracks on the spare tyne and replaced it to RHS tyne which has crack. Prepare the fork for welding and fitted new tyne.	07/13/2019
Imperilment controls faulty. Throttle not responding.	Work carried out by Westrac.  Work sheets attached.	07/09/2019
replace hyd oil due to westrac request	Replaced hydraulic oil and filters and checked for operation. Done as requested by Westrac.	07/09/2019
Call out, rotator not working	Travelled to call out, checked over rotator fault, still had kibble on it at 90deg. Once we got kibble off took to workshop to inspect. Removed rotator motor and inspected ok. Found there was no hydraulic flow going to rotator from hydraulic pump. Needs further looking at after Westrac worked on hydraulic system that day.	07/06/2019
Change out left hand tyne	Removed left hand tyne, then replaced with new (repaired tyne) Carried out by Vince Walker	07/08/2019

Find and repair roof leak,oil dip stick keeps popping out and lh cab light dull.	Travel to Kibble pad- check up for all XDR(?) found out that the rod needs to be done in workshop. escort the loader to workshop. removed the roof lining and the roof protector plate to see where the leak is - find out that its coming out of 2 wire grommets to old and not seated properly - replaced with new grommets and put sealant on it. Checked the dipstick - popping out because its to close to the pipe - vibration issue. Crimped the the pipe - checked when the engine on all good. Checked dull light - nothing wrong with it - as bright as the others.	06/29/2019
Windscreen wiper switch failed	Repaired wiring to switch as wipers didn't work at all, then found not all speeds work so replaced wiper switch	07/20/2019
Make and put temporary cover on electrical wirings and component.	Make cover - made up of fly board. Travel to kibble pad and fit so that components & wires will be protected from the rain & mud, while the cat technicians are not finished wiring it and the new cover hasn't arrived yet.	06/27/2019
Investigate on derating and ot starting issue.	Travel to Kibble pad, check on derating issues. Replace air cleaner and fuel filters still derating. while investigating all the loader electrical shutdown. found out that the problem is on the fire suppression system. Try to find out the problem is, couldn't find it. Decided to just to bypass the fire Suppression system so that the loader can be used. start the loader and greased up the rotator( advice the supervisor to get fire suppression electrician to fix the fire suppression issue) - assist greasing and repairs.	06/26/2019
Check for dash warning light	Travel from camp to workshop and grab tools and possible parts needed. Travel to workshop to kibble pad. Check for warning light on dash, find out that its for block hydraulic filter, replace filter, start engine, check warning light and it goes off. Check hydraulic level then travel to camp.  Parts used; 1 x hydraulic filter	06/18/2019
Loader 1000 Hour Service	Carried out service as per attached service sheet.	06/25/2019

Coolant leak	Found radiator hose clamp loose. Tightened up, topped up level and tested OK. Washed down.	05/28/2019
Loader 250 Hour Service	Carried out 250 hour service as service sheet attached	06/02/2019
Check up auto greaser	Check up Auto Greaser and top it up. Check to see if its working.	05/10/2019
Replace cooling system hose off water pump	<p>CANNOT CANCEL DUE TO UNPROCESSED INVOICES.</p> <p>THESE ARE OLD WO'S WITH NO CONFIRMATION WORK HAS BEEN DONE, BUT IT CAN BE ASSUMED DUE TO THE TIMEFRAME BETWEEN CREATED DATE AND NOW.</p> <p>COMPLETE AS PER SHAUN GRAHAM AND NEIL BALDWINS REQUEST</p>	03/05/2020
Loaders - Weekly Inspection	<p>Carry out Weekly inspection as service sheet attached.</p> <p>Work completed by Josh Hull - Mater</p>	05/04/2019
Call out coolant leak	Traveled to call out. Checked over for coolant leak and found hose going onto heater top leaking due to hose being soft. Cut back hose and refitted. Also found clamp loose on bottom hose of water pump. Needs new hose and clamps. Tested OK	04/29/2019
Loaders - Weekly Inspection	Completed with WO-GFE-009-566	04/26/2019
Loader 500 Hour Service	Carried out 500 hour service as service sheet attached.	04/26/2019
Loader 250 Hour Service	Completed with WO-GFE-009-566	04/26/2019
Inspect coolant leak	Checked over coolant leak and found coolant coming out of over flow as it was filled up at last service.	04/06/2019
Replace A/C heater tap control valve	Drained coolant to carry out work. Once drained, repaired heater taps on the back of water pump. removed heater control model in cab and fitted new one. Filled coolant up, tested OK	04/11/2019
Loaders - Weekly Inspection	Carried out weekly service as service sheet attached.	04/05/2019
Loader 500 Hour Service	Carry out 500 Hour Service as per SHEMS-14-FM-MW085 checklist as per WO-GFE-009-213	03/27/2019
Replace door gas strut	Replace door gas strut	04/01/2019

Repair engine shutdown and not start again fault	Filled fuel tank. Replaced and filled fuel filters.	03/23/2019
Front windscreen wiper not working	Found both front and rear wipers not working. Found no power to both switches. After rewiring diagram I could see there is a common point where the power supply wired splice into each other. After removing panels I found the splice point was under the cab. Due to the weather and how busy the loader is needed it was easier to pitch up ign power rear switch. Wired in the power supply, tested OK. Still needs new switch as it wont turn off if you use the water.	03/22/2019
Loaders - Weekly Inspection	Carry out weekly inspection.	03/24/2019
Loader 2000 Hour Service	Carry out 2000 Hour Service as per SHEMS-14-FM-MW085 checklist	03/27/2019
Call Out Axle temp alarm	traveled to call out. Checked what symbol was alarming in CAT book. It is the axle oil temp. Checked temp sensors front and back. Looked OK. Found even at 40 - 50 deg the alarm s still going off. Got driver to keep heat gun with him so he could keep an eye on it.	03/14/2019
Remove and Replace Starter motor	Traveled to breakdown. Picked up starter motor from workshop. Traveled to loader on site. Had Jason turn key while I checked power. Power supply was good. Removed and replaced starter motor. Tested OK.  Parts used; Starter motor	03/14/2019
6 Monthly Service Fire Equipment	Inspect, test and tag fire equipment - CARRIED OUT BY CFS KALGOORLIE	03/15/2019
Inspect Hyd Fault	Go to kibble pad, check for the warning light coming out from dash. Find out that its for hydraulic filter . Bring loader to workshop and replace the hydraulic filter.	02/26/2019
Replace Air cleaner housing	Replaced housing.	03/24/2019

Replace Quick hitch Valve	to kibble pad.  Parts used; Quick hitch valve.	04/08/2019
Replace heater taps	Done on WO-GFE-009-316	04/11/2019
Replace HYD hose as required	CANNOT CANCEL DUE TO UNPROCESSED INVOICES.  THESE ARE OLD WO'S WITH NO CONFIRMATION WORK HAS BEEN DONE, BUT IT CAN BE ASSUMED DUE TO THE TIMEFRAME BETWEEN CREATED DATE AND NOW.  COMPLETE AS PER SHAUN GRAHAM AND NEIL BALDWINS REQUEST	03/05/2020
Loader 500 Hour Service	Carry out 500hr Service	02/19/2019
Loaders - Weekly Inspection	Carry out weekly inspection as per sheet	03/05/2019
Loaders - Weekly Inspection	Done with 500hr Service. WO-GFE-008-695	02/18/2019
Replace seized battery isolator	replaced both seized Isolators.	03/27/2019
Inspect and repair damaged fuel tank	Inspect Damage - Drained fuel Liase with Drage boilermaking Cory repaired 08.02.2019	02/08/2019
Inspect rotator and motor	Inspect rotater motor and hosing. Insected hearing movement and mounting bolts. Inspected for cracks. All ok.	02/05/2019
Inspect auto grease system	Checked over grease system found no fault	01/12/2019
Loaders - Weekly Inspection	Carried out as part of WO-GFE-008-310	01/23/2019
Loaders - Weekly Inspection	parts used; Engine air filter Cab inner air filter Cab outer air filter	02/05/2019
Loader 250 Hour Service	Carried out 250 hour service	01/23/2019

Engine oil leak from filter housing	removed and replaced top gasket on oil filter housing. Tested ok. Washed down.	01/01/2019
Loaders - Weekly Inspection	Carried out Weekly Inspection.  Work completed by Double R Andrew Halbert 2 hours	12/28/2018
Loaders - Weekly Inspection	Carried out Weekly service.  Defects; Rear indicator not working Leak on tilt ram seal	12/23/2018
Loaders - Weekly Inspection	Carried out weekly service	12/14/2018
Loader 1000 Hour Service	Carried out 1000 hour Service. (takes a lot of time because have to do it in between loaders job, just can work on it when they're not using Loaders)  parts used; Hydraulic Filters 50S Engine Oil Filters Cab Air Filters Engine Air Filters	12/24/2018
inspect grease pump fault	Checked over grease system to see why it keeps flashing red light for fault. Ran test cycle to get grease to grease parts. Ran with no fault, put back into service it faulted, ordered pressure switch, replaced pressure switch tested OK	12/09/2018
Loaders - Weekly Inspection	Carry out weekly service	11/24/2018
Loaders - Weekly Inspection	CARRIED OUT WEEKLY INSPECTION	12/06/2018
Loaders - Weekly Inspection	Completed as part of WO-GFE-007-777	11/17/2018
Replace failed starter motor	Tested starting system and found starter motor had failed. Removed and replaced starter motor - Tested - OK	11/16/2018
Loader 500 Hour Service	500 hr service	11/24/2018
Investigate heater controls	Double R Inspect, leave heater inop. C/out heater core.  Work completed by Double R	02/05/2019

Loaders - Weekly Inspection	Weekly service and washed	11/12/2018
Replace POS 1 tyre due to damage	Replace POS 1 tyre due to run flat with spare r/out tyre Work completed by Kaltire	10/31/2018
Replace Rear cab lights	Replace rear cab lights as keep blowing	11/07/2018
Loaders - Weekly Inspection	completed on WO-GFE-007-642	11/04/2018
Loader 250 Hour Service	Carry out 250 Hour Service as per SHEMS-14-FM-MW085 checklist	11/06/2018
Remove faulty fire alarm module	Removed faulty fire alarm module	10/02/2018
Loaders - Weekly Inspection	Carried out weekly service Weld cracks on forks	10/19/2018
Loaders - Weekly Inspection	Carried out weekly service Greased rotator nil a/c filets in stock	10/13/2018
Loader 1000 Hour Service	Completed as part of WO-GFE-007-302	09/28/2018
Loaders - Weekly Inspection	Completed as part of WO-GFE-007-327	09/28/2018
Loader 2000 Hour Service	Carry out 2000 Hour Service as per SHEMS-14-FM-MW085 checklist	09/29/2018
Investigate electrical fault with Alternator	Investigate fault, trace to exciter wire, repair and test - OK  Work completed by Double R (Todd)	09/26/2018
Repair broken lh rear grab rail	Removed damaged hand/grab rail Cut out broken section Weld in new section Cleaned up and painted	09/15/2018
Grease system timing fault	Investigate fault. Trace and locate broken wire in artic point. Repair broken wiring	09/30/2018
Fire suppression bottle bracket failed	Removed suppression bottle and wall plate. Fabricated new wall plate and bottle mount. Painted and fit. Fit and secured bottle. Applied grip tape to wall plate.	09/14/2018
Replace Rotator pump	Replace Rotator pump	09/12/2018
Replace ETI Shutdown panel	Replace ETI Shutdown panel	09/10/2018
Investigate rotator pump fault	Investigate Pump fault, locate broken shaft. Remove and replace pump	09/09/2018

Rectify failed Rotator rams and lock for quick hitch	Investigate fault, locate LH Q-Hitch lock ram failed. Weld keeper in place to hold lock bar until new parts arrive. Cut out LH Ram shaft to allow pin to retract in order to remove rotator. removed what was left of LH ram/pin and removed RHS. Replaced rams and LH pin. Cleaned up bores and valley Assembled and routed hoses in manner that will avoid chafing and being squashed. Tested mostly OK. Found shuttle valve for retracting rams is inop. Will chase up next business day	09/15/2018
6 Monthly Service Fire Equipment	Completed by Cooper Fluid Systems	09/06/2018
Level 2 PEFS Service	Completed by Cooper Fluid Systems	09/06/2018
Loaders - Weekly Inspection	Serviced as part WO-GFE-007-029	09/01/2018
Rectify rotator not rotating	Callout - remove front cover and test - no turning Removed pump and found shaft was broken Replaced pump and test - OK Refit cover	09/02/2018
Loaders - Weekly Inspection	Carry out Weekly inspection as per SHEMS-14-FM-MW183	09/23/2018
Loaders - Weekly Inspection	Carry out weekly service as per service sheet attached	09/08/2018
Loader 250 Hour Service	250hr service and repair lights	09/14/2018
Charge light coming on	Investigate and found signal wire end U/S. Removed and made up new lead. Fit and test - OK	08/25/2018
Low coolant	Topped up coolant. Has slight leak in engine bay. Needs checking out next weekly	08/17/2018
Loader 250 Hour Service	CARRY OUT 250HR SERVICE BETWEEN HOPPER REFILLS	08/14/2018
