## TECHNICAL PRODUCT DATA SHEET

### 8 T KERB / DOCK ACCESS RAMP

## MASSEPOIDS - KERB RAMP 8 TONNES

**RITCHIE BROS. AUCTION - CAORSO, ITALY**  
**SERIAL No.: I0110-24**

High-strength steel kerb ramp for loading and unloading operations with a forklift. Robust professional design with a rated load capacity of up to 8 tonnes.

|                       |                       |
|-----------------------|-----------------------|
| <b>Rated capacity</b> | 8,000 kg              |
| <b>Construction</b>   | High-strength steel   |
| <b>Deck</b>           | Anti-slip steel plate |
| <b>Safety</b>         | Safety chains         |
| <b>Handling</b>       | Fork pockets          |
| <b>Finish</b>         | Industrial orange     |
| <b>Condition</b>      | NEW - UNUSED          |

### AVAILABLE DIMENSIONS

| Version         | Overall dimensions | Rated capacity |
|-----------------|--------------------|----------------|
| Large kerb ramp | 2,200 x 2,400 mm   | 8,000 kg       |
| Small kerb ramp | 2,200 x 1,250 mm   | 8,000 kg       |

### DESIGN & FUNCTIONALITY

| Feature                  | Technical description                                                                          |
|--------------------------|------------------------------------------------------------------------------------------------|
| <b>Load capacity</b>     | Designed for loads up to 8,000 kg.                                                             |
| <b>Surface</b>           | Anti-slip steel plate for improved tyre grip.                                                  |
| <b>Safety</b>            | Equipped with safety chains for secure positioning during use.                                 |
| <b>Forklift handling</b> | Integrated fork pockets allow handling and repositioning with forklift forks.                  |
| <b>Application</b>       | Bridges kerbs, dock edges and height transitions during forklift loading/unloading operations. |

### PRODUCT IDENTIFICATION

This technical sheet is valid for the MASSEPOIDS 8 T kerb ramp family in both available sizes. The serial number shown above identifies the individual unit assigned to the Caorso auction.
