

TECHNICAL PRODUCT DATA SHEET

WELD-ON IMPLEMENT ATTACHMENT - TENIAS TYPE

ETE-1001 - STRAIGHT TENIAS / LOPEZ GARRIDO / CASTILLERO TYPE

RITCHIE BROS. AUCTION - CAORSO, ITALY

SERIAL No.: I0110-55 to I0110-64 | 10 UNITS

Heavy-duty weld-on attachment plate for agricultural front-loader implements. This is the traditional straight TENIAS-type coupling geometry, identified in the EURO-TLM attachment range as ETE-1001, and is distinct from the Euro Evolution and standard Euro attachment systems. Designed to transmit the traction, bending and torsional loads generated between the loader and the implement.

Reference	ETE-1001
Attachment type	Straight TENIAS type
Also compatible with	Lopez Garrido / Castillero type
Quantity in lot	10 units
Approx. lot weight	80 kg total
Approx. unit weight	8 kg
Construction	Heavy-duty steel attachment plate
Installation	Weld-on to implement
Finish	Black protective coating
Condition	NEW / UNUSED

COUPLING SYSTEM

System	Description
ETE-1001	Traditional straight TENIAS / Lopez Garrido / Castillero implement attachment.
Not Euro Evolution	Different from ETE-1002 Euro Evolution attachment.
Not standard Euro	Different from ETE-1006 standard Euro attachment.

MATERIAL & MECHANICAL FUNCTION

Property	Technical description
Material	Heavy-duty structural steel suitable for welded agricultural attachment systems.
Load behaviour	Designed for repeated traction, bending and torsional loads transmitted during implement operation.
Weld interface	Long weldable body provides a robust interface between the attachment and the implement structure.
Wear areas	Reinforced contact geometry at the loader engagement points.
Surface protection	Black protective coating for storage, handling and agricultural service.

APPLICATION & IDENTIFICATION

Weld-on attachment for agricultural implements intended for loaders using the traditional TENIAS-type interface. This Ritchie Bros. Caorso auction lot comprises 10 individual units, identified by serial numbers I0110-55 through I0110-64.
