Foreword

The Care Inspection "Inspection Report" is a check list to document and report the results of a completed Care Inspection on the machine. All completed "Inspection Reports" must be kept on file by the relevant Volvo dealer.

A Care Inspection has two levels, the CSR inspection and the technician inspection.

- The CSR inspection is used by the Customer Support Representative (CSR) and is a short basic inspection that can be performed without any tools.
- The Technician Inspection is a more comprehensive inspection and should be performed by a trained Volvo technician.

NOTE!

Always refer to the latest service and operator's information for correct procedures and specifications. Read and understand the safety instructions in the Operator's and Service Manuals for the machine.

Observe the regional and national regulations!

Inspection steps	Performed		Result and Notes
	CSR Inspection	Technician Inspection	A = OK B = Recommended C = Required
0 General			
0.1 Gather existing machine information			
0.1.1 Product plates, checking	☐	☐	
0.1.2 Service history, checking	☐	☐	
0.1.3 Oil analysis, checking	☐	☐	
0.1.4 MATRIS, Tech Tool and other service tools, reading		☐	
0.2 Check fluid levels			
0.2.1 Engine oil level, checking	☐	☐	
0.2.2 Coolant level, checking	☐	☐	
0.2.3 Transmission oil level, checking	☐	☐	
0.2.4 Hydraulic oil level, checking	☐	☐
