The figure consists of eight panels arranged in a 4x2 grid. The left column shows the initial state of a vortex pair, with two distinct vortices. The right column shows the subsequent stages of the interaction, where the vortices deform and eventually merge into a single structure. The panels are labeled 1 through 8, with 1 and 2 in the top row, 3 and 4 in the second row, 5 and 6 in the third row, and 7 and 8 in the bottom row. The panels show the evolution of the vortex pair over time, with the vortices becoming more elongated and eventually merging into a single structure.
