

Mechanic	Jai
Truck Registration (Or Asset Number)	Xo89dx
Vehicle Odometer	742849
Date Completed	2/13/2024
BODY TRUCKS ONLY	
Number plate, does it need replacing?	No
Check all external mirrors, wipers/ washers for damage & functionality	Complete/Working
Check all external headlights, clearance lights, indicators & warning beacons for damage & functionality	Complete/Working
Check all air tanks for damage & functionality of drain mechanism	Complete/Working
Check Battery Box/Compartment for battery security, damage & water levels	Complete/Working
Check all air intakes for blockages/ debris/dirt and clean if required	Complete/Working
Check front & rear cab mounts & cab suspension components for damage	Complete/Working
Check Exhaust mounting brackets, covers & pipes for damage/wear	Complete/Working
Check Vehicle horn, Air Horns & Reverse Alarm/buzzer for damage & functionality	Complete/Working
Check Fuel Tank & Fuel Lines (cross over) for damage & Fuel leaks	Complete/Working
Check Hydraulic Oil Tank & lines/fittings for leaks/Damage (if Fitted)	Complete/Working
Inspect Brake Boosters, Brake Rotors/ Drums for Damage/Excessive Wear	Complete/Working
Inspect all Tyres, Wheels & Rims for Damage, Loose nuts & Uneven/ excessive wear (minimum of 1.5mm tread depth across entire tyre)	Complete/Working
Inspect all wheel bearing covers for signs of leaks, damage or bearing failure	Complete/Working
Inspect all Mud/Spray Guards for damage & Security include all mud flaps	Complete/Working
Ensure Vehicle/Equipment Rego plates are undamaged, clearly visible & Secure	Complete/Working
Check air condition compressor, drive belt & pipes for signs of damage or Gas/Fluid Leaks, check functionality of AC unit inside cabin	Complete/Working
Carry out Full greasing of Vehicle & Trailer/Equipment & report any damage grease nipples/grease lines	Complete/Working

Inspect engine bay for fluid leaks. Check fluid Levels: Engine oil, Power Steering, Coolant, Hydraulic Oil, Washer Fluid & top up if required	Complete/Working
Inspect all Drive belts & pulleys for damage, slack/limited tension & track/groove of pulley	Complete/Working
Inspect front & Rear Suspension Components for signs of Damage, excessive wear or foreign objects	Complete/Working
Check suzi coils out of obstructions	Complete/Working
Inspect all Fire Extinguishers for security & Pressure (if fitted to vehicle or trailer)	Complete/Working
Fire extinguisher expiry date	
Check entry & exit points (side/tank steps) grab rails internal & external security & damage	Complete/Working
Check Cabin Door locking Mechanism (both Passenger & Driver Sides) for functionality	Complete/Working
Check Condition of Driver & Passenger Seat for damage & functionality and both seatbelts	Complete/Working
Check all Window winder/power window functions both driver & passenger sides	Complete/Working
Check function of Brake Pedal Sensors (activates the brake lights on Vehicle & Trailer)	Complete/Working
Check All in Cabin Gauges including the Speedometer & Tachometer for functionality	Complete/Working
Check all interior lights & switch/Gauge Backlights (illuminated display)	Complete/Working
Check function of UHF Radio & Condition of Aerials	Complete/Working
Inspect Chassis for signs of damage/cracks or stress, including 5th wheel mounting if fitted	Complete/Working
Check condition of 5th Wheel/Turntable and ensure security & functionality, adjust if required	Complete/Working
Continue to B service?	No, end A service
Check Condition of Engine & Gearbox Mountings & replace/repair if required	
Check all universal joints & drive shafts for damage/wear & replace/repair if necessary	
Inspect Steering linkage system, Shock Absorbers, power steering box, kingpins & check for free play in Steering System	
Check Oil Level in Front Hubs, & front Wheel bearings for movement or damage/wear, including front axle inspection for damage	
Check Rear Wheel Bearings for seals, damage & movement, including rear axle inspection	
Check Rear Air Bag/Ride Height Suspension valve & Vehicle Stability Sensor (if Fitted)	

Check Transmission oil level, top up if required & inspect seals for leaks & bearings for movement & PTO (if fitted) and Retarder

Check Differential oil levels & Differential Breather lines/caps, inspect for leaks/damage & free play with regard to input & output bearings

Inspect Brake calipers, Rotors, Drums, Shoes, & adjust brakes

Check function & condition of Clutch & Adjust if Required

Inspect the air compressor, hoses, lines & all connections for damage, wear or signs of failure

Check tailgate mounts, oil level, wiring and hand controller functionally

Inspect condition of fuel pump & all hoses, lines & connections for damage or wear

Check Coolant level, and top up if required

Inspect Engine/Cooling Fan & Shroud for damage/signs of wear plus drive belts & pulleys

Inspect Air Conditioning Compressor & Lines for functionality & Damage

Power Steering Inspect fluid reservoir for damage & lines/hoses for wear

Drain & Replace Engine Oil, change the Engine Oil Filters (obtain oil samples if required)

Replace Fuel Filters & Prime System if required

Replace Air Filters if needed or at "C" Service & Inspect Housing & Intakes for debris or damage (reset air filter indicator if fitted)

Continue to C service?

Check function of Exhaust/Engine Braking System & Adjust/Tune if Required (if fitted to Vehicle)

Change Out All Drive Belts & Inspect Pulleys Re-tension all new belts

Test all New or Re-tension

Drain Differential Oil & Replace Filter

Drain Gearbox/Transmission Oil & Replace Filter

Drain Front Hub Oils & Inspect - Replenish Front Hub & Oils & Inspect Seal for Integrity

Drain Power Steering Fluid & Replace Power Steering Filter (if Fitted)

PLEASE PROVIDE ANY DETAILS RELATING TO ANY MECHANICAL ADJUSTMENTS OR TUNING COMPLETED

Air filter check ok or date replaced

Speed limiter has had a physical check against an independent GPS tracking system and is compliant with NHVL requirements?
