**Certing**

<sup>1</sup> In the case of assemblies, the declaration only refers to the assembly itself. The conformity of the individual components used is the responsibility of the manufacturer.  
In the case of "partly completed machinery", the declaration only refers to the requirements of the directive under consideration (it is the manufacturer's responsibility to list them).

The CE mark<sup>2</sup> shown on the right can only be used under the responsibility of the manufacturer - once the technical file is successfully prepared - with the completion of EC Declaration of Conformity for all the relevant Directives/Standards.

This certificate refers to the representative sample submitted to conformity evaluation, the procedure for assessment of conformity with internal checks on production is under the responsibility of the manufacturer.

In the event that significant changes are made to the product or to the production process the validity of this certificate will lapse. The same in the event of applicable directives significant changes.
