Problem: Replace transmission with Volvo Reman and replace batteries in the machine				
Cause: Faulty transmission and dead batteries				
Correction: 4/17- Worked to drain fluids and removed panels from machine to start pulling trans.				
4/19- Worked to remove cooler finish draining coolant and start to remove cab.				
4/26- Worked to removed cab, hydraulic tank drivelines and get transmission ready to come out.				
4/27- Worked on removing cab off of machine, got everything unhooked from the cab and started working on removing all hydraulic lines on the hydraulic tank. Got the hydraulic tank removed off of the machine. Worked on removing connectors and pump off the transmission and everything around. Got transmission ready to be pulled.				
4/29- Worked to removed transmission from machine and swap
