Dear Mr. Delaplanche,

Subject: Remediation Certificate Application No. 00507993 Issuance

Former Bulk Petroleum Plant
4719 Railway Avenue, Vermilion, Alberta

The application for a Site-Based Remediation Certificate for the above indicated site has been reviewed and found to be satisfactory in meeting departmental requirements for a remediation certificate application, in accordance with Section 3.1 of the Remediation Regulation.

Please find enclosed the Site-Based Remediation Certificate No. 00507993 issued under Section 117 of the *Environmental Protection and Enhancement Act* for your records.

This letter acknowledges the duty to take remedial measures under Section 112 of the *Environmental Protection and Enhancement Act* has been met for the area specified in the Site-Based Remediation Certificate.

Section 91 of the *Environmental Protection and Enhancement Act* provides a right of appeal against this decision. There may be a strict time limit for filing such an appeal. For further information the appeal process, please visit www.eab.gov.ab.ca.

Yours truly,

Kerry Robertson
Manager, Program Coordination Unit
Contaminated Sites and Remediation Program
