7/10/2018		Bryan munro	27,721		low engine oil pressure light was coming on. Inspected the machine with manual gauge and it was low. I decided to change the oil and filters because it was overdue for a service. Started up and tested and pressure was back up to spec. This oil was in when the turbos was changed so it could be caused by the oil entering the cylinder increasing the soot levels	
8/6/2018	0178305-D01	G.E.T Australia		$177.10	Tooth J300 x 4.	
8/31/2018	98C090895A	Westrac		$58.84	Bolts

9/27/2018		Bryan munro	27,936		Operator complaining of engine light and the low engine oil pressure light coming on inspected the machine started up and ran no fault code, put the laptop on and found the oil pressure to be close to the bottom scale for rated pressure . installed pressure gauges found I had 40psi drop from the engine oil filters, made sure the correct oil filters are fitted which they are. took a sample and cut open the filters I found no metal but signs of carbon. RH bank has white smoke coming from it at cold startup which is a sign of a leaking injector. I am making up test fittings to make sure the intake aftercooler is not blocked cause it the engine to starve for air and cause bad combustion and high soot	
10/2/2018	98C091559	Westrac		$213.35	Retainer A, ring, nut, washer, bolt and coolant.
