This vehicle history report is based on [information](https://www.carfax.ca/vehicle-history-data) (https://www.carfax.ca/vehicle-history-data) that was reported and available to CARFAX Canada as of October 21, 2026 (or once all the data was collected from our data sources and the report was complete). CARFAX Canada draws on billions of data records from thousands of sources across North America, and we receive new historical data records every day. **There may be other information about this vehicle that has not been reported to CARFAX Canada.** When buying a used vehicle, we always recommend using a CARFAX Canada Vehicle History Report, along with a vehicle inspection and test drive, to make an informed decision.

Vehicle History Report

Accident/Damage

✓ There are no accidents/damage reported on this vehicle.

Registration

✓ This vehicle has been registered in the province of **Ontario** in **Canada** with **Normal** branding.

We checked for: *Inspection Required, Normal, Non-repairable, Rebuilt, Salvage and Stolen.*

Service Records

Open Recalls

Recall #: N202314670 | Front Center Seat Belt May Not Be Attached Recall Date: 2020 Dec 17

Recall Description

General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2019 – 2021 model year Chevrolet Silverado 1500 and GMC Sierra 1500 vehicles; 2020 – 2021 model year Chevrolet Silverado 2500/3500 and GMC Sierra 2500/3500 vehicles; and certain 2021 model year Chevrolet Suburban, Tahoe, and GMC Yukon XL vehicles equipped with a front-row center seating position. In these vehicles, the seat supplier may have failed to secure the seat-belt brackets to the seat frame in the front-row center seating position. If a seat-belt bracket is not secured, the seat belt may not properly restrain an occupant in the front-row center seat position, increasing the risk of occupant injury in a crash or high-speed braking event.

Remedy

Dealers will inspect left-side and right-side front-row center seat-belt bracket attachments and reassemble if necessary.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact CHEVROLET or visit [GM's website](https://my.gm.ca/gm/en/recalls). (https://my.gm.ca/gm/en/recalls)

Recall #: N192268090 | Brake System Malfunction Warning Recall Date: 2019 Dec 12

Recall Description

General Motors has decided that certain 2019 model year Cadillac CT6, Chevrolet Silverado 1500, and GMC Sierra 1500 vehicles may fail to conform to S5.3 of Federal Motor Vehicle Safety Standard (FMVSS) No. 126, "Electronic stability control systems for light vehicles" and S5.1 of FMVSS 135, "Light vehicle brake systems." In these vehicles, a software error can, in rare cases, disable the vehicle's electronic stability control (ESC) and antilock brake system (ABS) systems for a single ignition cycle. If this specific error occurs, the vehicle's diagnostics will not illuminate the vehicle's ESC and ABS telltale lamps, as required by S5.3 of FMVSS 126 and S5.1 of FMVSS 135.

Remedy

Dealers will reflash the EBCM.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact CHEVROLET or visit [GM's website](https://my.gm.ca/gm/en/recalls). (https://my.gm.ca/gm/en/recalls)

Recall #: N192273510 | Loose Alternator Cable Recall Date: 2019 Dec 12

Recall Description

General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2019 – 2020 model-year Chevrolet Silverado 1500 and GMC Sierra 1500 vehicles. The B+ battery cable rings in these vehicles may have been contaminated with glue residue at the supplier. During normal vehicle operation, the glue may soften and cause the nut that attaches the B+ battery cable to the alternator to loosen over time, which could lead to an intermittent electrical connection or arcing. During the supplier's assembly process, excess glue may not have been completely removed from the B+ battery cable rings, resulting in glue contamination that could affect the joint connection between the cable ring and the alternator. An intermittent electrical connection between the B+ battery cable and the alternator could cause the vehicle to stall. The intermittent connection could also lead to arcing, which could generate sufficient heat to damage surrounding material and increase the risk of a fire.

Remedy

Dealers will inspect the vehicle with a black light for the presence of glue or other contamination at the B+ cable attachment to the alternator. If necessary, dealers will clean the connection and reattach the B+ cable connection. If arcing has damaged the cable, nut, or alternator, the dealer will replace the damaged components.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact CHEVROLET or visit [GM's website](https://my.gm.ca/gm/en/recalls). (https://my.gm.ca/gm/en/recalls)

Stolen Vehicle Check

✓ This vehicle is not actively declared stolen.

This vehicle history report is compiled from multiple data sources. It is not always possible for CARFAX Canada ULC or its source data providers to obtain complete information on any one vehicle. For example, there may be other title, brands, registrations, declarations, accident information, service records, recall information, odometer readings or other information where discrepancies that apply to this vehicle are not reflected in this report. CARFAX Canada and its source data providers receive data and information from external sources believed to be reliable, but no responsibility is assumed by CARFAX Canada, its source data providers or its agents for any errors, inaccuracies or omissions. The reports are provided strictly on an as-is where-is basis, and CARFAX Canada and its source data providers further expressly disclaim all warranties, express or implied, including any warranties of timeliness, accuracy, merchantability, merchantable quality or fitness for a particular purpose regarding this report or its contents. Neither CARFAX Canada nor any of its source data providers shall be liable for any losses, expenses or damages in connection with any report or any information contained within a report, including the accuracy thereof or any delay or failure to provide a report or any information. Other information about the vehicle that is the subject matter of this vehicle history report, including problems, may not have been reported to CARFAX Canada. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car. By obtaining, reviewing and/or using this vehicle history report, you agree to be bound by all of the terms and conditions in CARFAX Canada's Conditions of Use and any CARFAX Canada End User Licence Agreements as each may be amended from time to time by CARFAX Canada.
