COLUMBIA VALLEY FREIGHT

Maintenance and Service History

Unit 214 — 2022 International MV607

Prepared 8 October 2026 for a prospective purchaser.

This record is taken directly from Columbia Valley Freight's maintenance and accounting systems: work orders raised in our own shop, and invoices from outside suppliers.

Coverage. Supplier invoices are held from January 2026 and shop work orders from February 2026. Work carried out before those dates is not held in these systems and is not shown here. Labour hours are as entered on each work order; a number of records carry no hours. Meter readings in the service tables are those recorded at the time of service; the current reading comes from the vehicle telematics on the date shown.

CVIP. Inspection expiry dates reflect the current six-month inspection cycle. The certificate carried on the vehicle should be taken as authoritative.

No costs are shown in this record. Supplier invoices and shop labour costs are available on request.

Unit 214 — 2022 International MV607

Detail	
Unit number	214
Year / make / model	2022 International MV607
VIN	3HAEUMMP2NL267073
