Unit	Model	Date	Work Order Details
73052	670GLC	6/6/2023	Tie up quick attach hoses
73052	670GLC	6/11/2023	pull counterweight , undo quick attach hoses on boom and rerun them properly
73052	670GLC	6/12/2023	Move to Triomphe
73052	670GLC	7/7/2023	Inspect and order parts for quick attach
73052	670GLC	7/19/2023	Pull pin , try find strong chemical smell in cab , too many air freshest
73052	670GLC	7/20/2023	Pin stick cylinder, continue troubleshooting smell in cab , AC leak reseal txv valve will monitor if smell is still present after a day or 2
73052	670GLC	7/24/2023	Travel to site. Remove old weld from quick attach wedge and weld on new guides. Travel back to shop.
73052	670GLC	7/26/2023	Travel to site and check turbo sweep.
73052	670GLC	7/26/2023	3982 hours ; find AC leak in cab , remove and replace AC evaporator , recharge system And set off a scent bomb to try get rid of smell
73052	670GLC	7/31/2023	Replace seat cover and monitor smell in cab
73052	670GLC	8/1/2023	Go smell can to see if AC leak smell is fading away , still pretty strong in the morning , will get seat and liners washed
73052	670GLC	8/5/2023	Check AC pressure and ord parts
	670GLC	8/6/2023	Lube service
	670GLC	8/10/2023	Continue troubleshooting Freon smell in cab pressure up system find leak remove and replace TXV valve
			and steel line going to evaporator reassemble cab and recharge AC system, release quick fresh in cab and circulate air for 30mins
73052	670GLC	8/11/2023	Check AC pressures, no drop since tube and txv replaced
73052	670GLC	8/14/2023	Hookup AC gauges to ensure no AC leak -good
73052	670GLC	8/16/2023	Check out secondary locks not engaging on quick attach, bolts backed off on cylinder , tighten up bolts , clean out sand and lube up slides
73052	670GLC	8/21/2023	Go over machine again to find when smells coming from , check AC -pressure still good , found melted o rings on quick attach valve , clean up and replace , will monitor smell
73052	670GLC	8/22/2023	Check smell before startup and again later in the day to see if it is fading away
73052	670GLC	9/9/2023	Travel to site and check CEL on. Codes for DCU improper power down and EGR cooler degradation. Check
			temps and check coolers. No leaks currently, levels are good. Clear faults and return to service. Told
			operator to monitor coolant level.
73052	670GLC	9/12/2023	Check out why quick attach valve gets so hot that it melts out o rings on the check valve, found pressure
			reducing valve leaking back to tank

73052 670GLC 9/18/2023 Make and replace pilot line on top of control valve 73052 670GLC 10/6/2023 Travel to site and change valve block for quick attach. Test quick attach. 4751 hours. 73052 670GLC 10/6/2023 Check out quick attach valve temp and if it still heats up - temp good at valve 73052 670GLC 10/19/2023 Travel to site and check over quick attach boom manifold. Running at 55C and Hydraulics are at 63C. Check pressure and valve operator. No faults found. Take sample of hydraulic oil. 73052 670GLC 10/20/2023 Unpin stick cylinder, re pin in Azur and help with 3000hr service 73052 670GLC 10/20/2023 Weld wedge guides back on 73052 670GLC 10/21/2023 Weld wedge guides back on 73052 670GLC 10/21/2023 Lube service 73052 670GLC 11/6/2023 Tile quick attach hose back onto boom 73052 670GLC 11/6/2023 Tile quick attach hose back onto boom 73052 670GLC 11/8/2023 Tile quick attach hose back onto boom 73052 670GLC 11/8/2023 Bucket would not come SCR fault for DEF not building pressure or priming, 10042-12 10520-12 remove and replace DEF module/pump assembly pull tank apart, remove DEF header assembly and clean out fill strainer that came apart 73052 670GLC 11/8/2023 Bucket would not come frepair secondary loc
