

Unit	Model	Date	Work Order Details
1683	SY215C	7/30/2023	Installed packer
1683	SY215C	7/30/2023	Install hoe pack on unit
1683	SY215C	9/22/2023	Remove hydraulic line of unit have it sent to poplar to build new one and re install it
1683	SY215C	10/1/2023	Inspection of unit , looked for cracks and structural damage (stick , boom , track frame / car body and bucket) looked for defective leaking hydraulic hoses and hose integrity. Went over Operation of lights , horn and wipers and any other new damage to cab and body No major concerns found
1683	SY215C	10/20/2023	Swap old packer attachment with new due to old one being wore out
1683	SY215C	11/2/2023	Unlock machine so they can move it. Won't start for them, start machine. Tag out hoe pack once machine is parked.
1683	SY215C	11/2/2023	Welded on new ice lugs
1683	SY215C	11/2/2023	Weld new ice lugs
1683	SY215C	11/3/2023	Remove hoe pack and install bucket
1683	SY215C	11/19/2023	Missing tooth try to locate tooth at poplar. No luck. Ordered a set plus one
1683	SY215C	11/23/2023	Find unit install bucket tooth into unit
1683	SY215C	11/24/2023	Swapped bucket over
1683	SY215C	11/26/2023	Find machine has no DEF. Grab DEF from service bay and fill tank. Run machine to clear codes and check operation - good.
1683	SY215C	11/28/2023	Fixed radio bracket and wiring to radio. Right side idler needs replaced
1683	SY215C	12/10/2023	Right idler and yolk failed. Crab walk unit to appropriate location. Inspected undercarriage. Make report
1683	SY215C	12/15/2023	Swap bucket
1683	SY215C	12/20/2023	Load up parts to take to machine. Position machine to split track. Pull 2 track pads. Notice that yoke is broken. Need track press to continue with repair - order additional parts needed.
1683	SY215C	12/20/2023	- loaded up idler and drove out to the unit. - staged machine to split tracks and removed track pads, was not able to split with what we had on site. - found yoke broken off of track adjuster so canceled track pin pressure and went back to office to order correct parts for the full repair.
1683	SY215C	1/1/2024	No radio range. Antenna missing. Install new antenna and test - no good. Inspect crimp - appears shielding wire interfering with copper. Replace crimp and test - good.

1683	SY215C	1/29/2024	- loaded up parts and head out to unit - lanced pin and split tracks , removed broken idler/recoil spring. - installed new idler, wrapped tracks and welded in pin.
1683	SY215C	1/29/2024	Replace RH idler and tensioner spring. Adjust tracks
1683	SY215C	1/29/2024	Split tracks installed new idler and put tracks back together
1683	SY215C	2/3/2024	Install bucket on unit. Bucket missing teeth, drive to laydown and look for teeth. No teeth in stock. Parts ordered
1683	SY215C	2/4/2024	Change buckets
1683	SY215C	2/17/2024	Unit lost tooth keeper. Got to unit and didn't have right one in truck. Drive to laydown and find right keeper. Return to unit and install
1683	SY215C	2/19/2024	Install new tooth and pin
1683	SY215C	2/28/2024	Switch over buckets
1683	SY215C	3/5/2024	Travel out to unit and found both brackets on the steel bin lines one on each side are broken tied lines two keep from moving will need a welder to repair the brackets
1683	SY215C	3/6/2024	Weld brackets
1683	SY215C	3/12/2024	Inspect unit and order fittings to get twist wrist bucket to work
1683	SY215C	3/15/2024	Build jumper lines and find quick fitting and install twist wrist bucket
1683	SY215C	3/15/2024	Removed, built and installed hose on wrist
1683	SY215C	4/6/2024	Removed stump pan and inspected leak,found dipstick tube cracked at base and dripping. Ordered tube.
1683	SY215C	5/1/2024	Engine dipstick tube leaking on unit. Pulled out tube and part of it was stuck inside the block. Tap and install bolt inside. Heat up block around tube and hammer on bolt to eventually get it out. Install new tube and secure. Run up unit and ensure it's no longer leaking. Reinstall belly pan.
1683	SY215C	5/1/2024	Extract broken dipstick tube from engine block Install new. Units a go
1683	SY215C	5/27/2024	Got to unit found def codes on screen went back to the laydown and got the computer, got back to the unit the com cable isn't in the box. Looked unit over didn't see anything. Codes still there and unit is derated
1683	SY215C	7/2/2024	Repair and install new bucket lines
1683	SY215C	7/17/2024	Boost unit. Prime fuel system
1683	SY215C	8/4/2024	System was empty pulled a vac on system checked for leaks didn't find any. Charged system turned unit on found hot air blowing out of feet and cooler air out vents crossed with nights
1683	SY215C	8/5/2024	Put panels back on they need to run unit

1683	SY215C	8/7/2024	Inspect unit
1683	SY215C	8/29/2024	Swapped twist wrist bucket and boom to stick hoses to the other sany as ac isn't working
1683	SY215C	8/29/2024	-go to unit to check ac -ops wanted twist wrist bucket swapped out -swap buckets with 1684. Had to swap lines from 1683 as well -1683 load rollers are severely worn out
1683	SY215C	10/29/2024	Weld small crack on cheek.
1683	SY215C	11/17/2024	Check over unit while available.
1683	SY215C	11/24/2024	1000hr service
1683	SY215C	11/24/2024	Perform 1000 hour service on unit.
1683	SY215C	12/1/2024	Heat and boost unit
1683	SY215C	12/4/2024	Drove to unit tightened up arm rest
1683	SY215C	12/4/2024	Fix armrest and straighten body panel
1683	SY215C	12/23/2024	Boost unit
1683	SY215C	1/1/2025	Drove to unit to repair track came off, more blocks required. Drove back to laydown for blocking.
1683	SY215C	1/1/2025	Boost unit
1683	SY215C	1/2/2025	Diagnose engine oil leak. No leak found while inspecting. Oil overfilled and spilled all around engine. Level adjusted.
1683	SY215C	1/2/2025	Helped Ken put tracks back on
1683	SY215C	1/2/2025	Track came off tried to get it on by myself couldn't get it got Connor to come over and give me a hand got track back on and adjusted
1683	SY215C	1/3/2025	Drive to laydown, find teeth. Only had enough to replace 2. Drive back and replaced teeth
1683	SY215C	1/3/2025	Drove to unit, removed tooth, drove to laydown, grabbed parts and returned, installed 2 new outer teeth.
1683	SY215C	1/4/2025	Bucket swap
1683	SY215C	1/4/2025	Repair bucket
1683	SY215C	1/4/2025	Gouge/weld cracked frog on bucket
1683	SY215C	1/5/2025	Sample engine and finals. Changed airfilter. Had wrong fuel filter and cabin air so notnchanged
1683	SY215C	1/6/2025	Finals flushed and oil changed
1683	SY215C	1/8/2025	Swap bucket
1683	SY215C	1/26/2025	-clean bucket and wedge -install bucket
1683	SY215C	2/2/2025	Repaired hyd leak drove to yard to build new hose than drove back to w4
1683	SY215C	2/5/2025	Flip cutting edge

1683	SY215C	2/5/2025	Removed, cleaned and flipped cutting edge.
1683	SY215C	2/5/2025	Removed cutting edge. Buffed mating surfaces. Replaced hardware. Tightened to spec.
1683	SY215C	2/8/2025	Find plexiglass and drive out to w4, cut and install kick window
1683	SY215C	2/8/2025	Found plexiglass in welding sea can, drove to unit, measured and cut plexiglass for kick window. Installed window
1683	SY215C	2/9/2025	Stick cylinder scored real bad and leaking. Won't retract all the way and extends by itself. Possible contamination in system. Will need to pull and check spools
1683	SY215C	2/9/2025	Drove to unit, found stick cylinder is leaking very bad and chrome is scored deeply. Seems to have a sticking spool valve, got pulled off of unit to look at another.
1683	SY215C	2/19/2025	Drive to unit, get software flashed, remove exhaust cans to get cleared out
1683	SY215C	2/20/2025	Cut open after treatment canisters, remove catalysts, weld back shut
1683	SY215C	2/23/2025	Drive to machine, remove egr cooler, template and build/fabricate blocker plates
1683	SY215C	2/23/2025	Install egr block off plate and install exhaust cans back into unit
1683	SY215C	2/26/2025	Help with cylinder removal.
1683	SY215C	2/26/2025	Weld broken brackets and remove stick cylinder
1683	SY215C	2/26/2025	Remove stick cylinder
1683	SY215C	2/28/2025	Changed sensor
1683	SY215C	3/16/2025	Install stick cylinder Inspect for internal damages
1683	SY215C	3/16/2025	Replace stick cylinder. Clean related systems and tank. Tested unit for issues. Damage to spools from contamination from old cylinder. May need new spools for stick
1683	SY215C	3/17/2025	Polish damaged stick spoils and lap main control valve envelopes Test after repair
1683	SY215C	3/19/2025	Bucket cylinder hoses leaking from o rings replaced o rings and put unit back to work
1683	SY215C	3/20/2025	Boost unit checked oil levels while waiting for unit to charge
1683	SY215C	4/3/2025	500 hour service completed
1683	SY215C	4/3/2025	500 hr service complete.
1683	SY215C	4/19/2025	Steamed unit
1683	SY215C	5/10/2025	Rollers toast, reinstall track
1683	SY215C	5/18/2025	Full clean
1683	SY215C	5/18/2025	Full clean
1683	SY215C	5/19/2025	Steam
1683	SY215C	5/19/2025	Fullclean
1683	SY215C	6/10/2025	Tracks adjusted
1683	SY215C	7/29/2025	Demob
