Inspections / Annual CVIP /

March 17 2024 Donovan

-Look over trailer for CVIP

-Crack repair at the rear of the trailer

March 18 2024 Donovan

-Set up for welding in trailer dump box, From sheet of aluminum to the contour of the floor (lots of hammering) Prep the floor for welding, repair floor cracks then lay down the sheet, had to repair the spool gun a few times due to the pipe over heating. (This is a lot of work not as easy as it seams I burnt 3.5 Lbs of spool).

March 19 2024 Donovan

-Put away welder

-change out rear brake shoes and drums with new due to old wearing to the end of its service life

-Cut out P/S rear bottom shock mount due to it being pounded out.

-start to clean faces of the rims.

March 20 2024 Donovan (7hrs)

-Diag repair D/S rear inner signal light, wire in new pig tail and change lights

-Change out rear reflective tape

-Clean wheel surfaces and install on rear 2 axels

-Pull wheels on front 2 axels and change brakes due to brakes being at the end of their service life. Clean all surfaces

-check lights

-take measurements for CVIP and fail trailer on website.

-look over trailer for CVIP found a bad camber wear pattern on the D/S rear 2 Axels witch would indicate a bent axle at those two wheel ends, Informed Hammy on my findings.

-Full bay story time
