Correction If the pressure sender replacement does not rectify the concern there is a TSB for oil control valve failure which is a much larger job, and require further diagnosis.

Recommend replacement of oil pressure sender and retest. Providing estimate.

Replaced oil pressure sending unit. Cleared codes and retested. PASS. Customer to monitor.

Reconnected the GPS unit to the DLC and immediately turned on the CEL. Scanned for codes and retrieved LIN bus data fault codes. Cleared codes and retested. PASS. Reconnected the GPS unit and CEL came on again immediately. GPS unit or related wiring may have a fault. Recommend trying a GPS unit from a different vehicle or have the company that installed it take a look as thats not something we generally install here.

Complaint: "Grinding noise " front LH wheel, diagnose

Cause: Customer request

Labor	Correction: Chassis / Chassis / Pulled the unit into the building and lifted on a hoist. Performed visual and physical inspection. The wheel bearing is damaged the grinding can be heard when spinning the wheel by hand. Inspected other attached components to ensure nothing else was damaged. The unit will need the hub/bearing assy replaced. Job complete			\$125.00
-------	--	--	--	----------

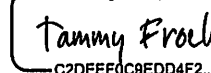

Subtotal \$125.00

Complaint: Remove and replace driver side wheel bearing

Item	Description	Quantity	Rate	Amount	
Cause: Customer request					
(Inspection)					
Labor	Correction: Chassis / Chassis / Lifted the unit on a hoist. Removed the driver side front wheel, brake caliper, brake rotor then disconnected the ABS wire. Removed and discarded the damaged hub/bearing assy. Cleaned all the fasteners with a wire wheel before installing or reinstalling any components. Installed a new hub/bearing assy then torqued the mounting fasteners to spec. Re-routed the new ABS wire through the original path. Cleaned then reinstalled the brake disc then the caliper and torqued the mounting fasteners to spec. Reinstalled and torqued the axle nut to spec. Reinstalled the driver side front wheel, lowered the unit, torqued the lug nuts to spec, then placed a torque tag on the driver side of the windshield. Tested the unit to ensure the service was successful. Job complete.			\$312.50

Any warranties on the parts and accessories sold hereby are made by the manufacturer. You understand and agree that we make no warranties of any kind unless expressed in writing. You hereby authorize us to perform the repair work herein set forth and to purchase the necessary material and parts to perform such repair work. You agree that we are not responsible for loss or damage to your vehicle or articles left in your vehicle in case of fire, theft, or any other cause beyond our control or for any delays caused by unavailability of parts or delays in part shipments by the supplier or transporter. In addition, you agree that we are not responsible for damages to your vehicle from freezing due to lack of antifreeze. You hereby grant our employees permission to operate your vehicle on streets, highways, or elsewhere for the purpose of testing and/or inspection. You acknowledge and agree that an express mechanic's lien on your vehicle is granted to secure payment of this invoice for the repair work detailed in this invoice.
