Rush Truck Centres

Subject: Certification Request

To Whom It May Concern,

The following International chassis was manufactured as an incomplete vehicle requiring the installation of a fifth wheel or body to make it a complete vehicle.

International Motors, LLC and its subsidiaries and affiliates manufacture trucks at locations in the United States, Canada, and Mexico. None of these manufacturing locations is a "Foreign Trade Zone" established pursuant to 19 USC Sec. 81b and defined in 15 CFR 400.2(g).

As manufactured by International Motors, LLC the following listed chassis will conform to all applicable U.S. FMVSS and Federal EPA regulations in effect at the time of manufacture.

The EPA required emission label is attached to the engine either on the rocker covers, timing cover, or intake manifolds and attests to EPA regulations and the model year met.

There are no outstanding Safety Recalls on the following vehicle.
