width

The CA-10 Fast Tent from Njordair is a self erecting, heavy duty inflatable work tent system designed for rapid deployment and relocation.

Using Fast Tent prevents weather-related downtime and keeps your crews safe & productive year round. Fast Tents also create a professional image for your business.

The 10 m (33') wide Fast Tent (constant air) work tent is a rapid deployment air building suitable for a wide range of applications in tough operational environments and is a popular choice with the construction industry. With rapidly inflatable reinforced PVC 'air beams', our 10 m (33ft) wide 'Fast Tent' inflates in just 2 minutes 45 seconds.

Supplied as a 5 m (16'5") long module. Use the CA-10 inflatable work tent as a 'standalone' building or join multiple modules together (end walls are removable).
