ARTICULATING CRANE ENGINEERING CERTIFICATION

2026282.

CLIENT: Vic City Crane
2406 Snowden
Sooke BC. V9Z 1J9

Project Number: 2605-036

EQUIPMENT: HIAB CRANE - 20

MODEL: 200C-4 **SERIAL No**: 20002628

CERTIFICATION DATE: May 12, 2026 **EXPIRY: 12 Months from Inspection date.**

The above-described equipment was inspected in the assembled condition under the direct supervision of Fabcher Holding Ltd. Inspection was performed in accordance with WorkSafe BC regulation 14.71, Annual Equipment Inspection and Certification in British Columbia, Version 1.1, and ASME B30.22-2005 and the manufacturer's specifications. Structural inspections were completed by Kilpatrick Testing Inc. Mechanical Controls Inspection was provided by Matthew MacKinnon (see mechanical). Review of qualified inspection personnel and periodic inspection and maintenance requirements indicated satisfactory diligence by the owner and operator.

Based on the condition of components at the time of inspection, review of the client's compliance with the cranes manufacturers maintenance manuals, successful completion of repairs, and information supplied by the owner, the crane is reasonably assumed to be **SAFE FOR USE** when operated and maintained in accordance with all regulations and specifications.

Failure of the operator to perform and log daily or pre-use inspections will void this certification.

This certification is **non-transferable** between owners.
